CUBAN BILL WINS

HOUSE COMMITTEE TO REPORT FOR RECIPROCITY.

MEASURE WINS OUT 11 TO 5

TWO REPUBLICANS AGAINST TARIFF CONCESSION.

ALL AMENDMENTS DEFEATED

THE DAY'S PROCEEDINGS IN CONGRESS.

Washington, March 31.—The ways and means committee voted to report the Cuban reciprocity bill. The vote was 11 to 5.

Two republicans—Tawney and Metcalf—voted against the bill. All amendments were defeated.

Hopkins, absent, was recorded as voting for the bill, making the recorded vote 12 to 5.

About thirty republican members of the house opposed to Cuban reciprocity met this afternoon to determine upon their course in view of the ways and means committee action in reporting the Payne bill.

It is expected the meeting will determine to carry the contest to the floor of the house.

IN THE HOUSE.

Washington, March 31.—Speaker Henderson called the house to order today with a gavel made from Philippine hardwood. It was presented to the speaker by Amos W. Brandt, a citizen of Des Moines, Iowa. Immediately after the approval of the journal the house went into committee of the whole and entered upon the consideration of the sundry civil appropriation bill.

Mr. Cannon, chairman of the appropriation committee, who was in charge of the measure, in a brief preliminary statement, explained that the bill carried $49,323,895, being $12,544,542 less than the estimates and $12,572,012 less than the current law.

In the course of his remarks Mr. Cannon called attention to the gratifying fact that the taxes collected were being reduced. Last year $41,000,000 of war taxes were removed and this year $70,000,000 were to be removed, making a total reduction of revenue in two years of $111,000,000.

IN THE SENATE.

Washington, March 31—Mr. Lodge, chairman of the committee on Philippines, today reported to the senate the bill temporarily to provide for the administration of the affairs in the civil government of the Philippine islands He said, in submitting the report, that he hoped to call up the measure for consideration at an early date.

Mr. Rawlins (Utah) of the same committee, offered an amendment to the Philippine government bill, in the nature of a substitute for it. It represents the views of the minority of the committee.

LINGERS IN LAP OF SPRING

WINTER DEPARTING IN A MANNER STRENUOUS.

Severe Wind Storm Sunday Does Damage and Prevents Usual Easter Dress Parade.

True to ancient tradition, March makes its exit in a manner entirely opposite to its entrance and departs into the past amid high winds and a whirl of snow. The mild weather of last week occasioned a disappearance of winter apparel and gave rise to the belief that Easter Sunday would be ideal for the usual Easter parade, but such was not to be. Instead of the usual Easter display of handsome gowns and headgear, there was a resurrection of winter clothes and hats that would stand the rigor of a twenty-five-mile gale.

Saturday evening the mercury began to drop and toward Sunday morning a lively gale sprang up, which steadily increased until it had attained a high velocity. Walking was rendered very uncomfortable, because of the predisposition on the part of the breeze to beat the time made by trains from Chicago, consequently the cars were as heavily patronized as though the day were rainy.

The gale played havoc with signs, awnings, shade trees and every thing movable. Plate glass windows in Pettitner Bros.', Morgenthaim's, Kratzsch Bros.', Randall hotel and Schlatter hardware establishment were broken and a photograph display stand owned by C. H. Geyer was shattered. Overhead signs belonging to John M. Miller, Cut Rate shoe store, Sam Field and numerous other stores were blown down, and many pedestrians had narrow escapes from injury. A chimney at the Wayne Buggy company's factory was blown down and a small warehouse standing near the Foster shirt waist factory was unroofed. Two large shade trees on the Webster street side of the library site were blown down, blockading the street, and the firemen from engine house No. 3 were called out to clear away the branches. The damage to trees in all parts of the city was considerable.

A large hogshead used as a receptacle for waste paper, standing on the sidewalk on the Harrison street side of the Davis Medical company's offices, was overturned just as a gentleman with his family was passing in a double-seated carriage. The gust picked up a bunch of papers, not less than a dozen, and drove them directly across the street into the face and sides of the horse. Nothing is so productive of runaways as flying paper, and it was only through the presence of mind and good, strong arms of the driver that one was prevented in this case. The wind then played some funny pranks with the balance of the stuff emptied from the hogshead.

The attendance at the various churches was materially lessened and the crowds on the streets during the day were very small. In the evening the mercury began falling again, going to the freezing point by midnight. Snow began falling at an early hour this morning and the earth was soon covered by a mantle of white. Snow fell at intermittent periods during the day, melting as rapidly as it fell and rendering walking very uncomfortable.

It is believed, however, that the height of the cold spell has been reached and a rise of temperature may be looked for.

HAD A BAD FALL.

Baron Long, reporter for the Journal-Gazette, was badly shaken up and bruised in a fall from his motorcycle on Saturday afternoon. Mr. Long was speeding around the track at Swinney park when the front fork of the machine broke off. Mr. Long was thrown with great violence and bounced several times before bringing up against the bank. Fortunately no bones were broken, and Mr. Long was able to resume his pursuit of elusive items.

RETIRES FROM BUSINESS.

Saturday evening F. W. E. Helmke, of 1308 Calhoun street, sold out his shoe business to a gentleman from Cincinnati, who today shipped the stock to that city. Mr. Helmke is one of the pioneer shoe merchants of Fort Wayne, having been in business here continually since 1866. He will retire from active business pursuits.

PHILIPPINE BILL

COLONIAL MEASURE GOES TO THE SENATE.

ADOPTED BY PARTY VOTE

DEMOCRATIC SUBSTITUTE IS KILLED IN COMMITTEE.

A CENSUS PROVIDED FOR

FEATURES OF MEASURE FOR ISLANDS' GOVERNMENT.

Washington, March 31.—The senate committee on the Philippines today completed consideration of the bill providing a form of government for the Philippine islands and authorized Senator Lodge to report it to the senate after voting down the democratic substitute by a party vote. The amendment providing for a census of the population of the islands is as follows:

"That whenever the existing insurrection in the Philippine islands shall have ceased and a condition of general and complete peace shall have been established therein and the facts shall be certified to the president by the Philippine commission, the president, upon being satisfied thereof, shall order a census of the Philippine islands to be taken; such census in its inquiries relating to the population shall take and may so far as practicable full report for all the inhabitants of name, age, sex, race or tribe, whether native or foreign born, literacy in Spanish native dialect or language, or in English, school attendance and ownership of homes and such other information separately for each island, each province and municipality, or other division, needful to inform the president and congress concerning the capacity, fitness and readiness of all the people of the Philippine islands and of particular islands, provinces and municipalities, and other civil divisions, for the establishment and maintenance in the Philippine islands or certain of them of a permanent, popular representative government."

MUST MAKE REPORT.

After the completion of the census the Philippine commission is required to report fully to the president and congress their recommendations based on such census and upon the operation of the local governments provided for, whether or not all or certain of the Philippine islands are capable, fit and ready for the establishment of a permanent, popular representative government.

The Philippine commission is continual in effect and there is no further hint than that above quoted of a possible change. The following provision is made for the extension of the commission's authority: "That the Philippine commission meantime is hereby authorized and directed in their discretion, to continue to establish additional municipal and provincial governments in the Philippine islands, with popular representative governments so far and so fast as communities in such civil divisions are capable, fit and ready for the same, the qualification of electors in elections in municipalities and provinces to be the same as now provided by law for electors in municipal elections; and said Philippine commission, whenever they find other male inhabitants of lawful age in such municipalities and provinces capable, fit and ready for such extensions, shall include the same among the electors, with the purpose of gradually extending to municipalities and provinces permanent, popular representative government."

Other features of the bill relate to the details of the commissions administration and have been from time to time published.

PROVISION FOR CURRENCY.

The provision concerning the currency to be used in the islands covers six pages of the bill.

After authorizing the Philippine government to establish a mint at Manila and extending the coinage laws of the United States so far as applicable to the islands, the following is inserted as a section:

"That the Philippine government is authorized to coin a silver dollar which shall contain 416 grains of standard silver, and the standard of such silver coins shall be such that of one thousand parts by weight nine hundred shall be of pure metal and one hundred of alloy, and the alloy shall be of copper. And upon the said silver dollar there shall be devices and inscriptions to be prescribed by the government of the Philippine islands with the approval of the secretary of war of the United States, which devices and inscriptions shall express or symbolize the sovereignty of the United States and that it is a coin of the Philippine islands, together with the denomination of the coin expressed in English, Filipino and Chinese characters, and the date of its coinage.

FREE COINAGE OF SILVER.

"That any owner of silver bullion may deposit the same at the mint in the Philippine islands, to be coined as hereinbefore provided. Silver bullion brought to the mint of the Philippne islands for coinage shall be received and coined by the proper officers for the benefit of the depositors. Provided, that it shall be lawful to refuse at the mint any deposit of less than $100 and also any bullion so base as to be unsuitable for the operations of the mint, and, provided, also, that when gold is combined with said bullion in such small proportion that it cannot be separated advantageously, no allowance shall be made for such gold to the depositor."

The silver dollar is made a legal tender in the Philippines. There is a further requirement that the depositor of the bullion to be coined shall be required to pay one cent for each piece coined. Authority is given for the coinage at San Francisco at the request of the Philippine government of silver dollars authorized by the act, but it is required that the silver coined at the San Francisco mint shall have been produced in the United States. Silver certificates of not less than $10 in denomination are authorized.

Authority also is given for the coinage of a subsidiary Philippine coinage consisting of half dollars and of twenty-cent and ten-cent pieces.

WEDDING WAS A SURPRISE

MISS ETHEL HANNA AND E. H. COOMBS MARRIED.

Ceremony Performed at Trinity Church This Afternoon—Was Announced for Wednesday.

Miss Ethel Hanna and Edmund H. Coombs were quietly married this afternoon at 2:30 o'clock at Trinity Episcopal church by the rector, Rev. A. W. Seabrease, the guests being relatives and a few intimate friends of the couple. Contrary to the usual custom at church weddings, only invited guests were admitted.

The wedding was announced for Wednesday of this week, but it was decided that the ceremony should take place today and this announcement will be a great surprise to the many friends of Mr. and Mrs. Coombs. Few outside the circle of invited guests were aware of the change of date and a company of Mr. Coombs' friends, who had arranged a little pleasantry for the occasion, will be disappointed.

Trinity church was decorated with flowers and plants appropriate for Easter and presented a very beautiful appearance. The bridal party entered the church promptly at 2:30, and taking their places in front of the altar, were made man and wife by Rev. Seabrease. Miss Hanna wore a becoming traveling gown and she was attended by her sister, Miss Margery Hanna. S. Fred Hanna acted as groomsman.

After the ceremony Mr. and Mrs. Coombs were conveyed to the depot, leaving shortly after 3 o'clock for a wedding tour, which will include New York, Philadelphia and other cities in the east. They will be absent about two weeks.

The bride and groom are well known members of Fort Wayne society and enjoy a wide popularity. Mr. Coombs is one of Fort Wayne's leading business men and is interested in a number of important enterprises in this city, in addition to the large wholesale hardware house of which he is the head.

NUPTIAL KNOT IS TIED.

Among the arrivals at the Randall hotel Saturday evening were a young lady and a young gentleman whose names upon the register read: John A. Wybourn, Scott, Ohio, and Miss Rose Barkley, Monroeville, Ind. Sunday morning Mr. Wybourn confided to Clerk Moreland that within a short time he would be prepared to revise the form of registration, and the young couple left the hotel. A few hours later they returned, and when the young man again tried his hand at registering for himself and lady, his effort read: "Mr. and Mrs. John A. Wybourn, Scott, Ohio." The young people had quietly slipped away from friends at home and came to this city for the purpose of having the marriage ceremony performed and the nuptial knot was tied Sunday morning. Mr. and Mrs. Wybourn left this morning for their home.

Mrs. B. S. O'Connor is at home from a visit of several weeks in Chicago.

WED IN TOMBS

MARRIAGE CEREMONY IN THE NEW YORK PRISON.

LAWYER PATRICK HAS BRIDE

MRS. FRANCIS MARRIES MAN CONVICTED OF MURDER.

DONE BY STROKE OF A PEN

VIGILANCE OF OFFICIALS IS OUTWITTED.

New York, March 31.—Albert T. Patrick, convicted last week of murder in the first degree for plotting the death of millionaire William Marsh Rice, and now awaiting the death sentence, and Mrs. Addie L. Francis have become husband and wife in the matron's room of the Tombs, according to the American and Journal.

A pen stroke did it, despite all measures taken to prevent.

The arrangements were so perfectly made, so secretly planned and so cleverly executed that not until the marriage was irrevocably complete were Patrick's guards cognizant that it was even intended. The fact that Commissioner of Correction Hynes had declared his opposition to a marriage between the prisoner and the woman who has been so faithful to him during his long incarceration and the exhausting tension of the long-drawn out trial, made the Tombs officials more alert to prevent a marriage in the prison.

The marriage is said to have been accomplished, however, while the matron was present. The latter, however, was so much preoccupied while attending to the linen and her other duties that she was unaware of what was going on.

Mrs. Francis, accompanied by her attorney, her sister and Patrick's father, called at the Tombs and asked for a conference with the prisoner. He was escorted to the matron's room and after a few moment's the guard is said to have stepped outside. It is said the wedding contracts were then signed by Patrick and Mrs. Francis in duplicate. Under a law enacted by the legislature a year ago this form of marriage is lawful when the signing of the contract is witnessed by two persons. To perfect the ceremony it is only necessary to file a copy of the contract with a magistrate within six months.

The legal witnesses to the ceremony were Patrick's father and his sister, Miss Emma Patrick. Others were Patrick's little daughter and Samuel B. Thomas, an attorney who was called in as Mrs. Francis' legal adviser.

Samuel B. Thomas, attorney for Mrs. Francis, made the following statement today:

"As counsel of Mrs. Francis, I advised her that the contract marriage was absolutely valid and binding. Mrs. Francis has been engaged to Mr. Patrick since 1898. It was their intention to be married on the day of Patrick's acquittal, but as the verdict was against him this plan could not be carried out. They were married properly and legally, and as his wife, Mrs. Addie Francis Patrick can visit him when he is confined in the death house, which would have been denied her otherwise."

When the contract was presented to the city clerk it was refused, the clerk saying that the statement that the marriage took place at "On the corner of Center and Leonard streets, city of New York," was not definite enough as to place. The clerk suggested that something be produced to show that the contract was signed in the Tombs or else that the contract should give the street number of that building.

The clerk consulted legal authority and then decided to accept the contract for filing as it was offered originally. Mrs. Patrick's lawyer, Samuel B. Thomas, refused to make any change in the contract.

CHURCH IS PROSPERING.

Christ's Lutheran church experienced the most successful Easter season in its history. This church is the youngest church organization in the city, but is among the most vigorous. The increase in membership for the year, ending with yesterday, was about 27 per cent. of the enrollment one year ago. The number received on Palm Sunday and Easter represented an increase of 15 per cent. The communion yesterday, in spite of the bad weather, was the largest in the history of the organization. The morning service consisted of infant baptism, adult baptism, confirmation, reception by profession of faith and the holy communion. The services were exceptionally interesting and made a profound impression upon the large audience. In the evening the house was again filled almost to its full capacity to listen to a most excellent program by the Sunday school and church choir. All present agreed that it was one of the very best entertainments ever given in the church.

HE DIED IN ITALY.

Hon. Charles McCulloch has just been advised of the death of his nephew, Hugh McCulloch, which occurred March 27 at Florence, Italy, where the young man has made his home for several years. He was a son of F. H. McCulloch, now a practicing physician at Howardsville, Va., but formerly a resident of Fort Wayne. The young man was thirty-three years of age, a graduate of Harvard and a writer of unusual ability. He had published several volumes of poems.

HE FELL IN WITH BAD GIRLS

WINDMILL AGENT LOSES HIS EXPENSE MONEY.

Etta Pierce and Lillian Griffith Took Him to the Arlington—Both Sent to Jail.

A windmill agent named Goehnauer, an elderly man, complained to the police that Etta Pierce and Lillian Griffith are both bad girls. He said that he met the girls on Columbia street and went with them to a wine room at the Arlington. Whatever happened after that he was not so conscious of, but remembered that when he left the place he was $20 shy. Detective Coling found two girls at the corner of Columbia and Barr streets shortly after noon today and took them in tow. Judge Louttit was called and they were given an immediate trial and at 2:30 were sent to jail for fifteen days each on charges of prostitution. The Griffith girl has been over the Rhine before, but the other is a new comer, who says she came here from Ohio about six weeks ago. They admitted having got part of the old man's money, but denied stealing it. Goehnauer in the meantime did not show up at the trial for fear of being pinched for association, but the officers think they will get him tomorrow.

WILL TAKE TEAM TO SAGINAW.

President Mautner's asseveration to the contrary, it seems probable that what is left of the Fort Wayne base ball team will play the game this season in Saginaw uniforms in the Michigan State league. George ("Doggie") Miller and C. F. Baker are now at Saginaw, according to the Grand Rapids Post, making arrangements to place the team in that city. Mr. Baker, who was President Meyer's secretary in the Western association last year, is to be the business head of the team, while "Doggie" Miller will be playing manager. The Post prints an interview with Miller, in which the late Fort Wayne manager says the Western association is disintegrated. The Fort Wayne team, he says, was signed by personal contract to himself wherever he may go, and there will be no trouble about the players, he thinks.

LOCAL LINES.

J. P. Mooney, of Antwerp, Ohio, visited in the city over Sunday.

W. E. Baker has returned home to Cleveland, Ohio, after a visit with friends here.

J. D. Clugston, of Lagrange, was the guest of friends in the city over Sunday.

The undertaking rooms of H. H. Schone & Co. are being handsomely remodeled and improved.

The orchestra of St. Paul's Lutheran church will give a concert in the school hall on Barr street tomorrow night.

Architect J. M. E. Reidel is preparing plans for a handsome two-story brick store for Ort Bros., of Churubusco. The store will cost about $4,500.

Degree of Honor, No. 23, will give a tea at the home of Mr. and Mrs. C. M. Comparet, on Columbia avenue, tomorrow evening, from 5 to 8 o'clock, in which all the Degree of Honor lodges in the city will participate.

The Woman's Bible meeting of the Wayne street M. E. church will be held in the Sunday school room Tuesday afternoon from 3 to 4 o'clock—lesson, Exodus, 10:23. The monthly business meeting of the Ladies' Aid society will be held Wednesday afternoon at 2:30.

HAVOC BY STORM

GREAT DAMAGE WROUGHT IN PITTSBURG.

MANY HUNDRED THOUSANDS

CHURCHES FAVORITE MARKS FOR GALE'S WRATH.

ELEVEN BADLY DAMAGED

MANY PERSONS HURT, SOME OF WHOM WILL DIE.

Pittsburg, Pa., March 31.—The damage by yesterday's storm will probably reach several hundreds of thousands of dollars. The effects of the wind can be seen on all sides today, houses, churches and many large plants unroofed, bridges partly dismantled, fences and trees down and trolley, telegraph, telephone and fire alarm wires prostrated.

A remarkable feature of the storm was the number of churches that were injured. In Pittsburg and Allegheny and the immediate vicinity eleven houses of worship were more or less wrecked, but in only one of them, the Knoxville Presbyterian church, did any casualties occur. At the latter place, through the chimney coming through the roof, probably thirty-five persons were injured.

THE DAMAGED.

The local churches damaged are: St. Peter's Protestant Episcopal Bellefield Presbyterian, St. John, the Evangelist Roman Catholic and Eighth street Temple, of Pittsburg; African Methodist Episcopal and St. Wencelaus' Bohemian Roman Catholic, of Allegheny; First English Lutheran and United Presbyterian, of Braddock; Knoxville Presbyterian, St. Mary's Roman Catholic, McKee's Rock and Robinson Run United Presbyterian church, at McDonald, Pa.

The casualties as far as have been reported will not number more than sixty people injured, of whom five or six are likely to die.

Those probably fatally hurt were injured at the Knoxville Presbyterian church, and the Robison Run United Presbyterian church, McDonald. The linemen in the employ of the different telegraph and telephone companies and the bureau of fire and lighting were busy all night getting the systems in working order from the damage sustained during the storm. Lines were down in all directions, but the men at work repairing the damage expected to have the lines in working order before night.

A PECULIAR FEATURE.

A peculiar feature of the storm was that the weather bureau records show only a maximum velocity of wind of thirty-six miles an hour. Col. Frank Ridgeway, chief of the Pittsburg weather bureau, says it was only a squall, likely to occur at any time this season of the year. The conditions were cyclonic, but where the wind was the strongest its velocity would not exceed fifty or sixty miles an hour.

The weather today is blustery and snowy and high winds still prevail, but the velocity is not strong enough to do any more damage.

Dispatches from surrounding towns in western Pennsylvania, eastern Ohio and West Virginia report heavy damage from the storm, but no fatalities.

TRACTION MAGNATE HERE.

A. A. Anderson, general manager of the Mahoning Valley Traction company, is in the city today the guest of General Manager Nelson, of the Wort Wayne and Southwestern. Mr. Anderson is at the head of one of the most important of the Ohio interurban lines. He was formerly identified with street railway interests in Indianapolis, and it is said his present visit to Fort Wayne is purely of a social nature, he and Mr. Nelson being old friends. Mr. Anderson leaves this evening for his home at Warren, Ohio.

COMPANIES MAY DIVERGE.

Within a few weeks it is expected that the United States and the Pacific Express companies, which have long been closely identified in all sections of the country, will be maintained as entirely independent institutions, and that separate offices will be occupied by each. Agent C. B. Beaver, when asked today concerning the rumor, said that no official information had been received concerning the separation of the Fort Wayne offices, but he looked for such a move within the next two months.

The Misses Anna and Mabel [illegible] ton, of Toledo, are the guests [illegible] grandmother, Mrs. Jessie M[illegible]

Washington, March 31.—The senate committee on the Philippines today completed consideration of the bill providing a form of government for the Philippine islands and authorized Senator Lodge to report it to the senate after voting down the democratic substitute by a party vote. The amendment providing for a census of the population of the islands is as follows:

"That whenever the existing insurrection in the Philippine islands shall have ceased and a condition of general and complete peace shall have been established therein and the facts shall be certified to the president by the Philippine commission, the president, upon being satisfied thereof, shall order a census of the Philippine islands to be taken; such census in its inquiries relating to the population shall take and may so far as practicable full report for all the inhabitants of name, age, sex, race or tribe, whether native or foreign born, literacy in Spanish native dialect or language, or in English, school attendance and ownership of homes and such other information separately for each island, each province and municipality, or other division, needful to inform the president and congress concerning the capacity, fitness and readiness of all the people of the Philippine islands and of particular islands, provinces and municipalities, and other civil divisions, for the establishment and maintenance in the Philippine islands or certain of them of a permanent, popular representative government."

MUST MAKE REPORT.

After the completion of the census the Philippine commission is required to report fully to the president and congress their recommendations based on such census and upon the operation of the local governments provided for, whether or not all or certain of the Philippine islands are capable, fit and ready for the establishment of a permanent, popular representative government.

The Philippine commission is continual in effect and there is no further hint than that above quoted of a possible change. The following provision is made for the extension of the commission's authority: "That the Philippine commission meantime is hereby authorized and directed in their discretion, to continue to establish additional municipal and provincial governments in the Philippine islands, with popular representative governments so far and so fast as communities in such civil divisions are capable, fit and ready for the same, the qualification of electors in elections in municipalities and provinces to be the same as now provided by law for electors in municipal elections; and said Philippine commission, whenever they find other male inhabitants of lawful age in such municipalities and provinces capable, fit and ready for such extensions, shall include the same among the electors, with the purpose of gradually extending to municipalities and provinces permanent, popular representative government."

Other features of the bill relate to the details of the commissions administration and have been from time to time published.

PROVISION FOR CURRENCY.

The provision concerning the currency to be used in the islands covers six pages of the bill.

After authorizing the Philippine government to establish a mint at Manila and extending the coinage laws of the United States so far as applicable to the islands, the following is inserted as a section:

"That the Philippine government is authorized to coin a silver dollar which shall contain 416 grains of standard silver, and the standard of such silver coins shall be such that of one thousand parts by weight nine hundred shall be of pure metal and one hundred of alloy, and the alloy shall be of copper. And upon the said silver dollar there shall be devices and inscriptions to be prescribed by the government of the Philippine islands with the approval of the secretary of war of the United States, which devices and inscriptions shall express or symbolize the sovereignty of the United States and that it is a coin of the Philippine islands, together with the denomination of the coin expressed in English, Filipino and Chinese characters, and the date of its coinage.

FREE COINAGE OF SILVER.

"That any owner of silver bullion may deposit the same at the mint in the Philippine islands, to be coined as hereinbefore provided. Silver bullion brought to the mint of the Philippine islands for coinage shall be received and coined by the proper officers for the benefit of the depositors. Provided, that it shall be lawful to refuse at the mint any deposit of less than $100 and also any bullion so base as to be unsuitable for the operations of the mint, and, provided, also, that when gold is combined with said bullion in such small proportion that it cannot be separated advantageously, no allowance shall be made for such gold to the depositor."

The silver dollar is made a legal tender in the Philippines. There is a further requirement that the depositor of the bullion to be coined shall be required to pay one cent for each piece coined. Authority is given for the coinage at San Francisco at the request of the Philippine government of silver dollars authorized by the act, but it is required that the silver coined at the San Francisco mint shall have been produced in the United States. Silver certificates of not less than $10 in denomination are authorized.

Authority also is given for the coinage of a subsidiary Philippine coinage consisting of half dollars and of twenty-cent and ten-cent pieces.

WEDDING WAS A SURPRISE

MISS ETHEL HANNA AND E. H. COOMBS MARRIED.

Ceremony Performed at Trinity Church This Afternoon—Was Announced for Wednesday.

Miss Ethel Hanna and Edmund H. Coombs were quietly married this afternoon at 2:30 o'clock at Trinity Episcopal church by the rector, Rev. A. W. Seabrease, the guests being relatives and a few intimate friends of the couple. Contrary to the usual custom at church weddings, only invited guests were admitted.

The wedding was announced for Wednesday of this week, but it was decided that the ceremony should take place today and this announcement will be a great surprise to the many friends of Mr. and Mrs. Coombs. Few outside the circle of invited guests were aware of the change of date and a company of Mr. Coombs' friends, who had arranged a little pleasantry for the occasion, will be disappointed.

Trinity church was decorated with flowers and plants appropriate for Easter and presented a very beautiful appearance. The bridal party entered the church promptly at 2:30, and taking their places in front of the altar, were made man and wife by Rev. Seabrease. Miss Hanna wore a becoming traveling gown and she was attended by her sister, Miss Margery Hanna. S. Fred Hanna acted as groomsman.

After the ceremony Mr. and Mrs. Coombs were conveyed to the depot, leaving shortly after 3 o'clock for a wedding tour, which will include New York, Philadelphia and other cities in the east. They will be absent about two weeks.

The bride and groom are well known members of Fort Wayne society and enjoy a wide popularity. Mr. Coombs is one of Fort Wayne's leading business men and is interested in a number of important enterprises in this city, in addition to the large wholesale hardware house of which he is the head.

NUPTIAL KNOT IS TIED.

Among the arrivals at the Randall hotel Saturday evening were a young lady and a young gentleman whose names upon the register read: John A. Wybourn, Scott, Ohio, and Miss Rose Barkley, Monroeville, Ind. Sunday morning Mr. Wybourn confided to Clerk Moreland that within a short time he would be prepared to revise the form of registration, and the young couple left the hotel. A few hours later they returned, and when the young man again tried his hand at registering for himself and lady, his effort read: "Mr. and Mrs. John A. Wybourn, Scott, Ohio." The young people had quietly slipped away from friends at home and came to this city for the purpose of having the marriage ceremony performed and the nuptial knot was tied Sunday morning. Mr. and Mrs. Wybourn left this morning for their home.

Mrs. B. S. O'Connor is at home from a visit of several weeks in Chicago.

WED IN TOMBS

MARRIAGE CEREMONY IN THE NEW YORK PRISON.

LAWYER PATRICK HAS BRIDE

MRS. FRANCIS MARRIES MAN CONVICTED OF MURDER.

DONE BY STROKE OF A PEN

VIGILANCE OF OFFICIALS IS OUTWITTED.

New York, March 31.—Albert T. Patrick, convicted last week of murder in the first degree for plotting the death of millionaire William Marsh Rice, and now awaiting the death sentence, and Mrs. Addie L. Francis have become husband and wife in the matron's room of the Tombs, according to the American and Journal.

A pen stroke did it, despite all measures taken to prevent.

The arrangements were so perfectly made, so secretly planned and so cleverly executed that not until the marriage was irrevocably complete were Patrick's guards cognizant that it was even intended. The fact that Commissioner of Correction Hynes had declared his opposition to a marriage between the prisoner and the woman who has been so faithful to him during his long incarceration and the exhausting tension of the long-drawn out trial, made the Tombs officials more alert to prevent a marriage in the prison.

The marriage is said to have been accomplished, however, while the matron was present. The latter, however, was so much preoccupied while attending to the linen and her other duties that she was unaware of what was going on.

Mrs. Francis, accompanied by her attorney, her sister and Patrick's father, called at the Tombs and asked for a conference with the prisoner. He was escorted to the matron's room and after a few moment's the guard is said to have stepped outside. It is said the wedding contracts were then signed by Patrick and Mrs. Francis in duplicate. Under a law enacted by the legislature a year ago this form of marriage is lawful when the signing of the contract is witnessed by two persons. To perfect the ceremony it is only necessary to file a copy of the contract with a magistrate within six months.

The legal witnesses to the ceremony were Patrick's father and his sister, Miss Emma Patrick. Others were Patrick's little daughter and Samuel B. Thomas, an attorney who was called in as Mrs. Francis' legal adviser.

Samuel B. Thomas, attorney for Mrs. Francis, made the following statement today:

"As counsel of Mrs. Francis, I advised her that the contract marriage was absolutely valid and binding. Mrs. Francis has been engaged to Mr. Patrick since 1898. It was their intention to be married on the day of Patrick's acquittal, but as the verdict was against him this plan could not be carried out. They were married properly and legally, and as his wife, Mrs. Addie Francis Patrick can visit him when he is confined in the death house, which would have been denied her otherwise."

When the contract was presented to the city clerk it was refused, the clerk saying that the statement that the marriage took place at "On the corner of Center and Leonard streets, city of New York," was not definite enough as to place. The clerk suggested that something be produced to show that the contract was signed in the Tombs or else that the contract should give the street number of that building.

The clerk consulted legal authority and then decided to accept the contract for filing as it was offered originally. Mrs. Patrick's lawyer, Samuel B. Thomas, refused to make any change in the contract.

CHURCH IS PROSPERING.

Christ's Lutheran church experienced the most successful Easter season in its history. This church is the youngest church organization in the city, but is among the most vigorous. The increase in membership for the year, ending with yesterday, was about 27 per cent. of the enrollment one year ago. The number received on Palm Sunday and Easter represented an increase of 15 per cent. The communion yesterday, in spite of the bad weather, was the largest in the history of the organization. The morning service consisted of infant baptism, adult baptism, confirmation, reception by profession of faith and the holy communion. The services were exceptionally interesting and made a profound impression upon the large audience. In the evening the house was again filled almost to its full capacity to listen to a most excellent program by the Sunday school and church choir. All present agreed that it was one of the very best entertainments ever given in the church.

HE DIED IN ITALY.

Hon. Charles McCulloch has just been advised of the death of his nephew, Hugh McCulloch, which occurred March 27 at Florence, Italy, where the young man has made his home for several years. He was a son of F. H. McCulloch, now a practicing physician at Howardsville, Va., but formerly a resident of Fort Wayne. The young man was thirty-three years of age, a graduate of Harvard and a writer of unusual ability. He had published several volumes of poems.

HE FELL IN WITH BAD GIRLS

WINDMILL AGENT LOSES HIS EXPENSE MONEY.

Etta Pierce and Lillian Griffith Took Him to the Arlington—Both Sent to Jail.

A windmill agent named Gochnauer, an elderly man, complained to the police that Etta Pierce and Lillian Griffith are both bad girls. He said that he met the girls on Columbia street and went with them to a wine room at the Arlington. Whatever happened after that he was not so conscious of, but remembered that when he left the place he was $20 shy. Detective Coling found two girls at the corner of Columbia and Barr streets shortly after noon today and took them in tow. Judge Loutitt was called and they were given an immediate trial and at 2:30 were sent to jail for fifteen days each on charges of prostitution. The Griffith girl has been over the Rhine before, but the other is a new comer, who says she came here from Ohio about six weeks ago. They admitted having got part of the old man's money, but denied stealing it. Gochnauer in the meantime did not show up at the trial for fear of being pinched for association, but the officers think they will get him tomorrow.

WILL TAKE TEAM TO SAGINAW.

President Mautner's asseveration to the contrary, it seems probable that what is left of the Fort Wayne base ball team will play the game this season in Saginaw uniforms in the Michigan State league. George ("Doggie") Miller and C. F. Baker are now at Saginaw, according to the Grand Rapids Post, making arrangements to place the team in that city. Mr. Baker, who was President Meyer's secretary in the Western association last year, is to be the business head of the team, while "Doggie" Miller will be playing manager. The Post prints an interview with Miller, in which the late Fort Wayne manager says the Western association is disintegrated. The Fort Wayne team, he says, was signed by personal contract to himself wherever he may go, and there will be no trouble about the players, he thinks.

LOCAL LINES.

J. P. Mooney, of Antwerp, Ohio, visited in the city over Sunday.

W. E. Baker has returned home to Cleveland, Ohio, after a visit with friends here.

J. D. Clugston, of Lagrange, was the guest of friends in the city over Sunday.

The undertaking rooms of H. H. Schone & Co. are being handsomely remodeled and improved.

The orchestra of St. Paul's Lutheran church will give a concert in the school hall on Barr street tomorrow night.

Architect J. M. E. Rudel is preparing plans for a handsome two-story brick store for Ort Bros. of Churubusco. The store will cost about $4,500.

Degree of Honor, No. 23, will give a tea at the home of Mr. and Mrs. C. M. Comparet, on Columbia avenue, tomorrow evening, from 5 to 8 o'clock, in which all the Degree of Honor lodges in the city will participate.

The Woman's Bible meeting of the Wayne street M. E. church will be held in the Sunday school room Tuesday afternoon from 3 to 4 o'clock—lesson, Exodus, 10:22. The monthly business meeting of the Ladies' Aid society will be held Wednesday afternoon at 2:30.

HAVOC BY STORM

GREAT DAMAGE WROUGHT IN PITTSBURG.

MANY HUNDRED THOUSANDS

CHURCHES FAVORITE MARKS FOR GALE'S WRATH.

ELEVEN BADLY DAMAGED

MANY PERSONS HURT, SOME OF WHOM WILL DIE.

Pittsburg, Pa., March 31.—The damage by yesterday's storm will probably reach several hundreds of thousands of dollars. The effects of the wind can be seen on all sides today, houses, churches and many large plants unroofed, bridges partly dismantled, fences and trees down and trolley, telegraph, telephone and fire alarm wires prostrated.

A remarkable feature of the storm was the number of churches that were injured. In Pittsburg and Allegheny and the immediate vicinity eleven houses of worship were more or less wrecked, but in only one of them, the Knoxville Presbyterian church, did any casualties occur. At the latter place, through the chimney coming through the roof, probably thirty-five persons were injured.

THE DAMAGED.

The local churches damaged are: St. Peter's Protestant Episcopal Bellefield Presbyterian, St. John, the Evangelist Roman Catholic and Eighth street Temple, of Pittsburg; African Methodist Episcopal and St. Wenceslaus' Bohemian Roman Catholic, of Allegheny; First English Lutheran and United Presbyterian, of Braddock; Knoxville Presbyterian, St. Mary's Roman Catholic, McKee's Rock and Robinson Run United Presbyterian church, at McDonald, Pa.

The casualties as far as have been reported will not number more than sixty people injured, of whom five or six are likely to die.

Those probably fatally hurt were injured at the Knoxville Presbyterian church, and the Robison Run United Presbyterian church, McDonald. The linemen in the employ of the different telegraph and telephone companies and the bureau of fire and lighting were busy all night getting the systems in working order from the damage sustained during the storm. Lines were down in all directions, but the men at work repairing the damage expected to have the lines in working order before night.

A PECULIAR FEATURE.

A peculiar feature of the storm was that the weather bureau records show only a maximum velocity of wind of thirty-six miles an hour. Col. Frank Ridgeway, chief of the Pittsburg weather bureau, says it was only a squall, likely to occur at any time this season of the year. The conditions were cyclonic, but where the wind was the strongest its velocity would not exceed fifty or sixty miles an hour.

The weather today is blustery and snowy and high winds still prevail, but the velocity is not strong enough to do any more damage.

Dispatches from surrounding towns in western Pennsylvania, eastern Ohio and West Virginia report heavy damage from the storm, but no fatalities.

TRACTION MAGNATE HERE.

A. A. Anderson, general manager of the Mahoning Valley Traction company, is in the city today the guest of General Manager Nelson, of the Wort Wayne and Southwestern. Mr. Anderson is at the head of one of the most important of the Ohio interurban lines. He was formerly identified with street railway interests in Indianapolis, and it is said his present visit to Fort Wayne is purely of a social nature, he and Mr. Nelson being old friends. Mr. Anderson leaves this evening for his home at Warren, Ohio.

COMPANIES MAY DIVERGE.

Within a few weeks it is expected that the United States and the Pacific Express companies, which have long been closely identified in all sections of the country, will be maintained as entirely independent institutions, and that separate offices will be occupied by each. Agent C. B. Beaver, when asked today concerning the rumor, said that no official information had been received concerning the separation of the Fort Wayne offices, but he looked for such a move within the next two months.

The Misses Anna and Mabel Newton, of Toledo, are the guests of their grandmother, Mrs. James Wilding.

HICKMAN IS HELD

MUST ANSWER TO GRAND JURY ON CRIMIANL CHARGE.

HIS BOND FIXED AT $500

IN DEFAULT OF BONDSMAN THE DOCTOR IS IN JAIL.

POLICE COURT AT HOSPITAL

ELLIOTT GIRL UNABLE TO BE TAKEN TO CITY HALL.

Dr. T. L. Hickman was this morning bound over to the grand jury by Judge Louttit, of the municipal court, to answer to a charge of attempt to commit a criminal operation on Elenora Elliott. In default of $500 bond, Dr. Hickman was remanded to jail.

Judge Louttit evidently took Attorney Ryan at his word last Saturday when he said he would not appear in court at 8 o'clock in the morning for all the police courts in ten states. There were a number of cases, prisoners, attorneys, witnesses and others promptly on hand at 8 o'clock, and Attorney Ryan broke his record by showing up five minutes before the appointed time. The judge, however, took his time, and after looking at his watch, said that it was twenty-seven minutes after 8, and that he guessed he was late. The principal event of the morning was the hearing of the Hickman case, continued from last week, in which Dr. T. L. Hickman was charged with having practiced his profession contrary to the statutes, as already freely detailed in the city press. There was a large lobby, eager to hear racy testimony and feast on such smut as would be offered, but the lobby was disappointed. The attending physician stated to the court that the prosecuting witness, Miss Leonora Elliott, now at Hope hospital, was fairly well, but was not in a condition to be safely removed to the city hall during such weather as was existing. By unanimous agreement of the court, the prisoner, the witnesses and the attorneys, it was decided to adjourn to Hope hospital and there take the testimony of the Elliott girl. At the hospital the court was organized and the prosecuting witness was heard.

She detailed much of what has already been said; said that she had gone to Dr. Hickman's office on the 24th of March, and after stating her case, arranged with him to have a criminal operation performed upon herself; that the operation was performed during the evening of the same day, and that instruments were used.

Dr. W. W. Barnett testified that he had made an examination of the patient and found physical conditions corroborating the testimony of the girl. Dr. Hickman entered a general denial, but on the testimony of the girl and Dr. Barnett Judge Louttit bound the doctor over in the sum of $500 to answer to the grand jury, and in default of bail the doctor was again remanded to jail. Miss Elliott was also held in the sum of $200 as witness and she will remain at the hospital until other arrangements for her safe keeping can be effected. She objects to being held, says she will not appeal to her folks for aid, but wants to get away from home. It is whispered that her betrayer will produce the necessary bond for her release, will then marry her and may be persuaded to prosecute the case rather than forfeit the bond.

Dr. Hickman himself seems to be in a jovial mood. A Sentinel reporter accompanied him to jail and during the ride the doctor said that he was nearly 47 years old and had been drunk three times, and each drunk was a picnic. "This business reminds me of a picnic," said he. Questioned as to whether he could give a $500 bond, he said he would have no trouble at all in raising that much of a bond, but that he had been treated so nicely at the jail that he thought he would rather stay there for a while longer. Questioned closely on the point, he acknowledged that his practice would not suffer much by reason of his enforced absence.

WIFE-BEATER UP.

Before the Hickman case was called there were other interesting doings. The most important case was that of James Woodworth, a boilermaker living at 22 Charles street, who answered to two affidavits, one charging drunkenness and the other assault and battery, the victim being his wife, Mary Woodworth. Mr. Woodworth kind of broke into jail on his own account. He appeared at the police station last night and wanted somebody arrested. He said that he had been set upon and beaten by somebody and that somebody would have to be arrested or somebody would get into trouble. He was then drunk, and refusing to make an intelligible explanation of what he wanted, and continuing abusive and noisy, he was locked up. This morning his wife testified that he arrived at home last evening at [illegible] and commenced to quarrel with her. He was drunk, she said, and aggravated her greatly. Bye and bye she lost her temper and threw a piece of bread at him, which struck him on the nose and made it bleed. She indignantly denied, however, that the bread was of her own baking. She said it was "pumpernickel," and that it had been purchased from a baker who did not know that she intended to use it as a weapon of war; she wanted to say that much for the baker. She stated that her husband then got mad about something and came over to her side of the table and slapped her twice, winding up by driving her and her children out of the house. She related a pitiful tale of a sick daughter, seven years of age, who is suffering from rheumatism and threatened with hip disease, all brought out by a previous demonstration by the father last fall, when he abused the child and drove the family out of doors. This child, still sick, was included in the general eviction yesterday. Peter Zukopf, brother to Mrs. Woodworth; William A. Jackson and Peter Jung, neighbors, in a general way corroborated Mrs. Woodworth's story and added some few things that occurred out doors. All of them admitted that Woodworth was a bad man when drunk and all admitted that they had taken a "poke" at him, but only one at a time. Woodworth then took the stand and denied everything except being hit on the nose with the staff of life. He said it hurt and his nose bled full and plenty. The balance of his testimony was devoted principally to explaining to the court that he was a pretty good man and that he gave the other fellows a tussle, and intimated that he could lick any one of them at any time or place. This was not regarded as competent testimony, and so, after hearing the testimony of Captain Whitney and Buck Langard as to the man's condition when he was brought into court, the judge assessed a fine of $1 and costs on the intoxication case and took the other case under advisement.

OTHER CASES.

Jack Devany looked better this morning than he has at any time during his last twenty or thirty appearances at police court. He looked well fed and was fat, as well as comparatively clean. He said he had not been up since last October, when he drew a sixty-day prize; furthermore, that during the several months since he has been out he withstood temptation very successfully until last Saturday, when the wind crossed his trolley and it was all off. The judge said that in consideration of his good behavior since he got out of jail he would make it only thirty-one days this time, but that on his next appearance it would be ninety-one. Jack said he had a job leveling off a lot for a man, but the judge insisted that the sheriff needed him, too, and that ended the argument.

Con Needham, a drunk arrested by Humane Officer Schlaudroff last Saturday, was very penitent this morning and also insinuated that he was very hungry. Last Saturday he was saucy; this morning he was meekness personified. He produced a paid-up union card in the Typographical union and was allowed to depart on condition that he go to work or get out of town immediately. He accepted both propositions, but thought that walking would stave him in the face in about ten minutes.

Irvin Dull, a young man who said he came here from Helena, Ohio, about two weeks ago, pleaded guilty to the theft of a gold stick pin, the property of a boarder at the Calderwood hotel, where Dull was employed as porter. In explanation he said that he had found the pin in the hall and when subsequently questioned about it denied any knowledge of it, fearing it might get him into trouble. Judge Louttit said his trouble would amount to $1 and costs and fifteen days in jail. He was taken to the Bertillon room and was taken to jail after the other prisoners had been deposited.

Officer Elliott last evening forced an entrance into Braun's electrical supply establishment, on Calhoun street, to shut off the gas. The officer noticed that the stove was red hot, and fearing a conflagration, adopted heroic measures.

Officer Heller last evening settled a family disturbance between a man named Gross and his wife, who were getting things lurid on Clinton street, near the Pennsylvania company's offices. The parties said they would be real good, and no arrests were made. Sergeant Harkenrider settled a similar difficulty at 146 Holman street, and settled it in the same way.

HICKMAN IS HELD

MUST ANSWER TO GRAND JURY ON CRIMINAL CHARGE.

HIS BOND FIXED AT $500

IN DEFAULT OF BONDSMAN THE DOCTOR IS IN JAIL.

POLICE COURT AT HOSPITAL

ELLIOTT GIRL UNABLE TO BE TAKEN TO CITY HALL.

Dr. T. L. Hickman was this morning bound over to the grand jury by Judge Louttit, of the municipal court, to answer to a charge of attempt to commit a criminal operation on Elenora Elliott. In default of $500 bond, Dr. Hickman was remanded to jail.

Judge Louttit evidently took Attorney Ryan at his word last Saturday when he said he would not appear in court at 8 o'clock in the morning for all the police courts in ten states. There were a number of cases, prisoners, attorneys, witnesses and others promptly on hand at 8 o'clock, and Attorney Ryan broke his record by showing up five minutes before the appointed time. The judge, however, took his time, and after looking at his watch, said that it was twenty-seven minutes after 8, and that he guessed he was late. The principal event of the morning was the hearing of the Hickman case, continued from last week, in which Dr. T. L. Hickman was charged with having practiced his profession contrary to the statutes, as already freely detailed in the city press. There was a large lobby, eager to hear racy testimony and feast on such smut as would be offered, but the lobby was disappointed. The attending physician stated to the court that the prosecuting witness, Miss Leonora Elliott, now at Hope hospital, was fairly well, but was not in a condition to be safely removed to the city hall during such weather as was existing. By unanimous agreement of the court, the prisoner, the witnesses and the attorneys, it was decided to adjourn to Hope hospital and there take the testimony of the Elliott girl. At the hospital the court was organized and the prosecuting witness was heard.

She detailed much of what has already been said; said that she had gone to Dr. Hickman's office on the 24th of March, and after stating her case, arranged with him to have a criminal operation performed upon herself; that the operation was performed during the evening of the same day, and that instruments were used.

Dr. W. W. Barnett testified that he had made an examination of the patient and found physical conditions corroborating the testimony of the girl. Dr. Hickman entered a general denial, but on the testimony of the girl and Dr. Barnett Judge Louttit bound the doctor over in the sum of $500 to answer to the grand jury, and in default of bail the doctor was again remanded to jail. Miss Elliott was also held in the sum of $200 as witness and she will remain at the hospital until other arrangements for her safe keeping can be effected. She objects to being held, says she will not appeal to her folks for aid, but wants to get away from home. It is whispered that her betrayer will produce the necessary bond for her release, will then marry her and may be persuaded to prosecute the case rather than forfeit the bond.

Dr. Hickman himself seems to be in a jovial mood. A Sentinel reporter accompanied him to jail and during the ride the doctor said that he was nearly 47 years old and had been drunk three times, and each drunk was a picnic. "This business reminds me of a picnic," said he. Questioned as to whether he could give a $500 bond, he said he would have no trouble at all in raising that much of a bond, but that he had been treated so nicely at the jail that he thought he would rather stay there for a while longer. Questioned closely on the point, he acknowledged that his practice would not suffer much by reason of his enforced absence.

WIFE-BEATER UP.

Before the Hickman case was called there were other interesting doings. The most important case was that of James Woodworth, a boilermaker living at 22 Charles street, who answered to two affidavits, one charging drunkenness and the other assault and battery, the victim being his wife, Mary Woodworth. Mr. Woodworth kind of broke into jail on his own account. He appeared at the police station last night and wanted somebody arrested. He said that he had been set upon and beaten by somebody and that somebody would have to be arrested or somebody would get into trouble. He was then drunk, and refusing to make an intelligible explanation of what he wanted, and continuing abusive and noisy, he was locked up. This morning his wife testified that he arrived at home last evening at about 6 o'clock and promptly commenced to quarrel with her. He was drunk, she said, and aggravated her greatly. Bye and bye she lost her temper and threw a piece of bread at him, which struck him on the nose and made it bleed. She indignantly denied, however, that the bread was of her own baking. She said it was "pumpernickel," and that it had been purchased from a baker who did not know that she intended to use it as a weapon of war; she wanted to say that much for the baker. She stated that her husband then got mad about something and came over to her side of the table and slapped her twice, winding up by driving her and her children out of the house. She related a pitiful tale of a sick daughter, seven years of age, who is suffering from rheumatism and threatened with hip disease, all brought out by a previous demonstration by the father last fall, when he abused the child and drove the family out of doors. This child, still sick, was included in the general eviction yesterday. Peter Zukopf, brother to Mrs. Woodworth; William A. Jackson and Peter Jung, neighbors, in a general way corroborated Mrs. Woodworth's story and added some few things that occurred out doors. All of them admitted that Woodworth was a bad man when drunk and all admitted that they had taken a "poke" at him, but only one at a time. Woodworth then took the stand and denied everything except being hit on the nose with the staff of life. He said it hurt and his nose bled full and plenty. The balance of his testimony was devoted principally to explaining to the court that he was a pretty good man and that he gave the other fellows a tussle, and intimated that he could lick any one of them at any time or place. This was not regarded as competent testimony, and so, after hearing the testimony of Captain Whitney and Buck Langard as to the man's condition when he was brought into court, the judge assessed a fine of $1 and costs on the intoxication case and took the other case under advisement.

OTHER CASES.

Jack Devany looked better this morning than he has at any time during his last twenty or thirty appearances at police court. He looked well fed and was fat, as well as comparatively clean. He said he had not been up since last October, when he drew a sixty-day prize; furthermore, that during the several months since he has been out he withstood temptation very successfully until last Saturday, when the wind crossed his trolley and it was all off. The judge said that in consideration of his good behavior since he got out of jail he would make it only thirty-one days this time, but that on his next appearance it would be ninety-one. Jack said he had a job leveling off a lot for a man, but the judge insisted that the sheriff needed him, too, and that ended the argument.

Con Needham, a drunk arrested by Humane Officer Schlaudroff last Saturday, was very penitent this morning and also insinuated that he was very hungry. Last Saturday he was saucy; this morning he was meekness personified. He produced a paid-up union card in the Typographical union and was allowed to depart on condition that he go to work or get out of town immediately. He accepted both propositions, but thought that walking would stave him in the face in about ten minutes.

Irvin Dull, a young man who said he came here from Helena, Ohio, about two weeks ago, pleaded guilty to the theft of a gold stick pin, the property of a boarder at the Calderwood hotel, where Dull was employed as porter. In explanation he said that he had found the pin in the hall and when subsequently questioned about it denied any knowledge of it, fearing it might get him into trouble. Judge Louttit said his trouble would amount to $1 and costs and fifteen days in jail. He was taken to the Bertillon room and was taken to jail after the other prisoners had been deposited.

Officer Elliott last evening forced an entrance into Braun's electrical supply establishment, on Calhoun street, to shut off the gas. The officer noticed that the stove was red hot, and fearing a conflagration, adopted heroic measures.

Officer Heller last evening settled a family disturbance between a man named Gross and his wife, who were getting things lurid on Clinton street, near the Pennsylvania company's offices. Mercury and Potash

ONLY SERVE AS A MASK FOR CONTAGIOUS BLOOD POISON

They hide its repulsive form, and this serpent disease, stupefied by these drugs, lies dormant until the effects have worn off or treatment is discontinued, when it breaks down the mask and becomes as full of life and venom as ever. Mercury and Potash may dry up the sores and eruptions, but at the same time they drive the poison back into the blood and system, where it feeds upon the tender tissues, membranes and nerves, finally breaking out in most disgusting sores and even destroying the flesh and bones.

Mercury and Potash cannot accomplish a radical and permanent cure. They have a palliative but not curative effect upon this treacherous snake-like disease. These drugs produce mercurial Rheumatism, destroy the teeth and corrode the membranes of the stomach and bowels, causing inflammation and dyspepsia, nervousness and general derangement of the system.

S. S. S. is a Specific for Contagious Blood Poison, and the only antidote for the peculiar virus that spreads so quickly throughout the system, corrupting the blood and infecting every organ and fibre of the body.

SSS

S. S. S. destroys the serpent, and eliminates every atom of poison from the blood, it makes a thorough and radical cure of the disease, and at the same time builds up the general health. S. S. S. contains no minerals of any kind, but is a purely vegetable remedy and we offer $1,000 for proof to the contrary.

Write us about your case and our physicians will cheerfully advise without charge. Our home treatment book will be sent free to all who desire it.

LOVERS FIGHT FOR A BRIDE.

Battle Creek, Neb., March 31.—Herbert Stavely and Will Losey, rivals for the hand of Miss Stasia Severa, fough a duel with bare fists, in which Losey came off victor in a double sense. The two youths have been paying attention to Miss Severa, who is a decided beauty, for some time past, and lately their jealously of each other has grown acute. Last Thursday Losey called on the young woman at her home and found Stavely seated in the parlor. Angry words passed and Losey threw out a challenge, which was promptly accepted. The fight took place on the public street and was ended by the arrest of both participants, who were sentenced to pay a small fine and costs. Stavely suffered a broken nose, while Losey was uninjured, except for a bruise on the forearm. Miss Severa refereed the fight and declared Losey the winner. Their wedding is announced for May 1st.

Weak?

Then you want strength. Good food, an active liver, and pure blood will bring it. You naturally think of eggs and milk, Ayer's Pills and Ayer's Sarsaparilla. Ask your doctor if he can come any nearer to the truth. Do as he says, at any rate.

"For 25 years I have never missed taking Ayer's Sarsaparilla every spring. It cleanses my blood, makes me feel strong, and does me good in every way."

Mercury and Potash

ONLY SERVE AS A MASH FOR CONTAGIOUS BLOOD POISON

They hide its repulsive form, and this serpent disease, stupefied by these drugs, lies dormant until the effects have worn off or treatment is discontinued, when it breaks down the mask and becomes as full of life and venom as ever. Mercury and Potash may dry up the sores and eruptions, but at the same time they drive the poison back into the blood and system, where it feeds upon the tender tissues, membranes and nerves, finally breaking out in most disgusting sores and even destroying the flesh and bones.

Mercury and Potash cannot accomplish a radical and permanent cure. They have a palliative but not curative effect upon this treacherous snake-like disease. These drugs produce mercurial Rheumatism, destroy the teeth and corrode the membranes of the stomach and bowels, causing inflammation and dyspepsia, nervousness and general derangement of the system.

S. S. S. is a Specific for Contagious Blood Poison, and the only antidote for the peculiar virus that spreads so quickly throughout the system, corrupting the blood and infecting every organ and fibre of the body.

SSS S. S. S. destroys the serpent, and eliminates every atom of poison from the blood, it makes a thorough and radical cure of the disease, and at the same time builds up the general health. S. S. S. contains no minerals of any kind, but is a purely vegetable remedy and we offer $1,000 for proof to the contrary.

Write us about your case and our physicians will cheerfully advise without charge. Our home treatment book will be sent free to all who desire it.

LOVERS FIGHT FOR A BRIDE.

Battle Creek, Neb., March 31.—Herbert Stavely and Will Losey, rivals for the hand of Miss Stasia Severa, fough a duel with bare fists, in which Losey came off victor in a double sense. The two youths have been paying attention to Miss Severa, who is a decided beauty, for some time past, and lately their jealousy of each other has grown acute. Last Thursday Losey called on the young woman at her home and found Stavely seated in the parlor. Angry words passed and Losey threw out a challenge, which was promptly accepted. The fight took place on the public street and was ended by the arrest of both participants, who were sentenced to pay a small fine and costs. Stavely suffered a broken nose, while Losey was uninjured, except for a bruise on the forearm. Miss Severa refereed the fight and declared Losey the winner. Their wedding is announced for May 1st.

Weak?

Then you want strength. Good food, an active liver, and pure blood will bring it. You naturally think of eggs and milk, Ayer's Pills and Ayer's Sarsaparilla. Ask your doctor if he can come any nearer to the truth. Do as he says, at any rate.

"For 25 years I have never missed taking Ayer's Sarsaparilla every spring. It cleanses my blood, makes me feel strong, and does me good in every way."

Republican leaders are now beginning to doubt the wisdom of passing the ship subsidy bill at this session of congress, fearing its effect in the congressional elections. There is a general feeling that the republican majority in the house is not altogether safe and there is a growing belief that the subsidy bill should go over until next winter. Perhaps next it will be thought the grab ought, in view of the approach of the presidential elections, go over indefinitely.

Senator Jones, of Arkansas, has run up against something that in practical results is very much like what he has twice piloted the national democratic party to in the last six years. James P. Clarke, who contested in the Arkansas primaries with Senator Jones for a seat in the United States senate, by all the returns, appears to have shunted the venerable statesman onto the sidetrack. Senator Jones refuses to believe himself beaten, but that is more likely to be due to habit acquired in two national campaigns than to any confidence in his claims.

It is asserted that this government will not exert any influence on the new Cuban government in behalf of Neely, Rathbone and Reeves, lately convicted of the postal frauds in Cuba. However, it is at the same time hinted that President Palma, of Cuba, may find it in his heart to exercise clemency after a short time. It may be doubted if the Cuban president finds it so much in his heart as in the judgment of his head to pardon this precious trio of rascals. Notwithstanding their sojourn will be spent in prison, the Cuban government will probably feel safer with them out of the country than in Cuba under any circumstances. If they are pardoned the act will not be so much one of leniency as precaution.

A PHILIPPINE POLICY.

All persons in this country who believe the people of the Philippine archipelago ought to have a free and independent government will substantially agree that the plan proposed by the democratic members of the senate committee on the Philippine Islands is one having many admirable features.

The substitute just agreed upon by the democrats of the committee to be offered to the senate provides that the United States shall relinquish all sovereignty over the archipelago, but shall continue to occupy and govern the islands until the people there shall have established a government and guarantees have been secured for the performance of our treaty obligations with Spain, for the safety of natives who have adhered to the authority of the United States and for the protection of all rights which have accrued under the sovereignty of this government there. A constitutional convention is provided for the members of which shall be elected by voters who speak and write English, Spanish or some other language of the archipelago. The convention is to meet in Manila and form a constitution and organize a government well adapted to promote the welfare of the people. This convention shall provide, by an ordinance, irrevocable without the consent of the United States, the following securities:

"1. That there shall belong to the United States and continue to be the property thereof such lands and waters as the president of the United States shall designate to the said convention, for naval, military and coaling stations and terminal facilities for submarine cables, the same to continue under the control and sovereignty of the United States.

"2. To carry into effect the treaty obligations of the United States with the kingdom of Spain and for the maintenance and protection of all rights and property acquired under the authority of the United States.

"3. That no inhabitant of the archipelago shall ever be molested, in person or property, on account of his or her adherence to the United States."

Following these guarantees the president of the United States is to issue a proclamation declaring the independence of the people of the archipelago. The president is also authorized to negotiate an agreement between the United States, the Philippine archipelago and Great Britain, Germany, France and such other powers as he may deem best providing for the perpetual neutrality and inviolability from foreign interference with the territory of the archipelago and for equal trade opportunities between the archipelago and all foreign countries. Amnesty is to be granted to all inhabitants who have borne arms or have committed political offenses against the government and the armed forces of the United States are to be withdrawn within sixty days after the election and inauguration of Philippine officers under the constitution provided for.

ADJOURNED TO MAY 3.

The republican county central committee has not yet selected a date for holding the county convention, and the meeting Saturday adjourned to meet May 3, instead of fixing that date for the convention, as was erroneously stated Saturday evening. The committee is widely divided upon the question of an early convention and there was more than an hour of vigorous though fruitless discussion upon the subject. Chairman Harris favors an early convention, while others on the committee favored a date as late as August for the naming of the ticket. Mr. Harris said this morning that the convention would doubtless be held during May or June.

THE GRACE OF GOD

SERMON OF EVANGELIST HILTON LAST NIGHT.

THE LORD'S MERCY TO MAN

IMPRESSIVE TALK AT THIRD PRESBYTERIAN CHURCH.

VERY LARGE ATTENDANCE

BEGINNING OF A SERIES OF EVANGELISTIC SERMONS.

Evangelist Hilton opened a series of services at the Third Presbyterian church yesterday morning and conducted three meetings during the day—morning, afternoon and evening. The attendance at the evening service was very large, many being present from the First church, where the evening service had been omitted.

The subject of the sermon last evening was "The Grace of God," and the text was a portion of I Kings, seventeenth chapter, where the Prophet Elijah was sustained by God in a period of great famine. Major Hilton said in part:

"Surely no better illustration of the grace of God can be found than in

MAJOR HILTON.

this chapter. It was a time of great famine, the people were starving, and to add to their misery, the continued drought had dried up the streams and water was very scarce. God commanded Elijah to hide himself by the brook of Cherith and promised that the ravens would bring him food and the brook would supply him with water. But the drought caused the brook to dry up and God commanded Elijah to go to Zarephath, where he would be sustained by a widow woman. When the prophet came to the city he saw the woman gathering sticks. He asked her for water, and while she was bringing it he asked her for bread. The woman said, 'I have but a handful of meal in the bottom of a barrel and a little oil in a cruse, and I gather these sticks that I may prepare the meal for myself and my son that we may eat it and die.' But she brought him the meal without further question, and God said that the barrel of meal should not waste and that the cruse of oil should not fail for a year.

"God is able to make all grace abound unto grace. What is grace? I know of no more simple definition than the unmerited mercy and love for humanity. Humanity, because of weak nature, always fears for emergencies and is always looking ahead. We are prone to look into the future for fear something might happen. There could be no greater emergency than is found in the lesson. Elijah had perfect faith and did not look into the future. The woman of Zarephath did not question the prophet when he asked her for bread, but brought him the last she had in the house. But Elijah had a message from God, and the message was what the sufficiency of God's grace means. It has the same significance for us as it had for those people. We are surrounded by plenty, but we have to learn the lesson of the grace of God. The woman of Zarephath was obedient to the word of God spoken through His prophet and there was no lack of food. Where there is perfect obedience to God there is no need of looking into the future.

"The sufficiency of God is not like the sufficiency of man. God's grace means that there will be nothing lacking; this grace is sufficient for everything. You may pardon a man and you may forgive him for having done you a wrong, but you will never forget it. You can't and he won't. We admire a man that can take a blow and not return one; it takes more courage to refrain than to strike. But that is not God's way. He not only forgives but blots out your transgressions. That is where the magnitude of His grace is made plain to us. No matter how forgiving a man may be, he can never blot out the remembrance. If you steal, you must be punished according to the law. The judge cannot forgive you, because the law must be satisfied. But there is no law under grace. Why? Because Christ is the end of it. A man that accepts Christ has an advocate before God, an advocate that never lost a case. Under the law you are condemned for sin. Man can be freed by grace or condemned by sin—it lies with him.

"An official in the Russian treasury gambled away immense sums of the czar's money. He had no way of paying it back, and he knew that if he were discovered his punishment would be death. One night the czar noticed a light in the official's room, and wondering if something were amiss, he started out to investigate. official's room, he saw the man sitting at a table, his head resting on his arms, sound asleep. Tiptoeing over, the czar looked over his shoulder and saw the official had been working on his books. The monarch made a hasty examination and found that millions were missing. But the dejected attitude of the unfortunate man touched his heart. At the bottom of one of the pages he had written two words, 'lost, lost!' The czar took the pen and drew a line through the words, writing after them the words, 'Saved, saved! I the king, will pay the debt.' Hours afterward the official awoke, and seeing what the king had done, he was overcome with joy. He could scarcely believe that one he had so defrauded had canceled the debt and saved him from death.

"The relation of the sinner to God is the same. You cannot pay the debt, but the King died that by grace you might be saved. It is very simple for you. But what a price Christ paid! He will never die for you again. He gave up His life once to save you, and you cannot expect Him to do it again. Your only hope of salvation lies in grace."

Major Hilton will preach again tonight at the Third Presbyterian church.

FLEE FROM BURNING THEATER

TWO THOUSAND PEOPLE LEAVE IN SAFETY.

Pike's Opera House in Cincinnati is Partially Destroyed—Crowd Avoids a Panic.

Cincinnati, O., March 31.—Two thousand people retired without becoming panic stricken from the Pike opera house yesterday afternoon, during a fire which partially destroyed the Pike building in which the theater is located. Some of the women fainted after reaching the street, but no one was hurt. Standing room had been taken at the matinee, which was proceeding when the flames broke out.

The auditorium is on the second floor with two stairways leading to Fourth street. There is also a stairway from the stage leading to an alley in the rear.

Miss Collier and Byron Douglass in the leading roles had proceeded only ten minutes in the production of "Sag Harbor" when the portieres between the corridor and the north aisle were ablaze. The prompt efforts of Manager D. H. Hunt and his staff and those on the stage were most successful in averting confusion.

The fire started from some unknown cause in the basement storeroom of the Adams Express company, and extended up through the first floor of the Adams Express office and Joffee's grocery to the auditorium. The only thing burned in the auditorium was a portiere, but the volumes of smoke indicated a volcano under the audience. This volcano was evidently raging while the people were entering for the matinee. The auditorium was so badly damaged from water that it will not be used any more this season.

The Pike stock company was playing its closing week of the season here as it opens the summer season at Detroit next Sunday.

Manager Hunt had previously transferred his scenery for next week at Detroit from the building, so that it is safe, but he lost $10,000 in scenery that was stored in the lower part of the building. The members of the company saved all their costumes and baggage.

When the people reached the street they found the whole fire department of the city playing on both sides of the building, and it required some time for the officers to force the crowd away. Many were hunting for missing friends, and it took some time to convince the half-crazed anxious ones that there had not been a holocaust. A great portion of the women fled without their new Easter hats and wraps, and the individual losses will be considerable.

Dr. S. H. Baker has as his guest his brother, W. E. Baker, of Cleveland.

THE CURSE OF CANDY

The breaking down of so many school children, especially girls, has caused some persons to condemn the present system of study in the schools as overtaxing the pupils' brains. Those who have gone deeper into the matter, and by reason of professional ability are more compent to judge, assert that these breakdowns are due not to the overtaxing of the brain but the overtaxing of the stomach. Children are allowed and even encouraged to gorge themselves on the most indigestible "foods." The lunch they carry to school is usually a piece of pie or cake or some cookies, which is often topped off with candy. Not infrequently the child studies at night after a hearty meal, with a box of candy in her lap from which she steadily feeds while she cons her lesson. When the mother wants to show her child favor she buys her candy. When the visiting friend wants the little girl to have a good time his good will is expressed in candy. The result of this harsh treatment of the stomach and digestive and nutritive systems is that the child grows pale and her flesh becomes flabby. She is restless, nervous, has headaches, and talks in her sleep. "Poor child," says the fond parent, "She is studying too hard. Her brain is overtaxed." But the real trouble is not with the brain but the overtaxed stomach. If the brain suffers it is because the blood is deficient in the nutritive elements that feed it. If the nerves are unstrung it is because they too are not being nourished.

The body and all its organs are sustained by nutrition derived from food changed into blood and in this form conveyed to the various organs of the body. When the stomach and other organs of digestion and nutrition are diseased, they only extract a part of the nutrition from food and so brain and body alike grow weak from semi-starvation; and when the stomach is asked to digest indigestible things which are forced upon it, when out of pastry and candy it is required to make nutrition, it is a request to make bricks without straw and can only result in physical collapse.

In all cases where there is a diseased condition of the stomach and the digestive and nutritive systems, Dr. Pierce's Golden Medical Discovery commends itself for the prompt relief it gives and the perfect cure it accomplishes. It agrees with the most delicate and has been very successfully used with infants and children in cases of indigestion, and its complications. It cures the weakest child because it cures the strongest man, for the greater includes the less.

"Golden Medical Discovery" is especially adapted to the use of children and young people, because it contains no alcohol and is entirely free from opium, cocaine and all other narcotics.

"I have been thinking of writing to you for some time," says Mrs. W. D. Benson, of Maxton, Robeson Co., N. C., "to let you know what a wonderful thing Dr. Pierce's Golden Medical Discovery did for my little boy. He was taken with indigestion and was under the doctor's treatment for five long years. We spent all we made for doctor's bills and it did no good. When he would take a spell of indigestion he would lie for ten or fifteen days, and it seemed as though he would die. He had these spells every two or three weeks. He could not eat anything, only a little milk and cracker, and sometimes even this would make him sick. He could not eat any meat or vegetables and he got very weak; could not sit up all day, and I gave up all hope of his ever getting any better. I found one of your books and I noticed Dr. Pierce's Golden Medical Discovery recommended for indigestion; we bought some and gave it to our boy. He had been treated at Hood's Creek by a good doctor, and at Bennettsville, S. C., and at Currie, and Lumberton and Maxton, and was only relieved for a short time. We gave him two bottles of Dr. Pierce's Golden Medical Discovery and it cured him. He is as well as can be and can eat anything that he wants and it does not hurt him. He has not been sick a day since, and it has been three years since he took your medicine."

"My four-year-old daughter had suffered from indigestion and bowel trouble from birth," writes Mrs. Lizzie Aten, of Baldmount, Lackwanna Co., Pa. "The treatment given her by home doctors afforded but temporary relief. Last February she was taken with severe pain in the bowels followed by violent vomiting. She experienced difficulty in passing urine, which, when cool, deposited a milky sediment. I became alarmed from her symptoms and wrote to the World's Dispensary Medical Association, of Buffalo, N. Y., receiving in reply a letter advising the use of Dr. Pierce's Golden Medical Discovery, together with a special medicine which they sent, called 'Demulcent and Diuretic Infusion.' This line of treatment I followed for about two months, at the end of which time my child was enjoying good health, and she has had no severe attack of indigestion since."

Republican leaders are now beginning to doubt the wisdom of passing the ship subsidy bill at this session of congress, fearing its effect in the congressional elections. There is a general feeling that the republican majority in the house is not altogether safe and there is a growing belief that the subsidy bill should go over until next winter. Perhaps next it will be thought the grab ought, in view of the approach of the presidential elections, go over indefinitely.

Senator Jones, of Arkansas, has run up against something that in practical results is very much like what he has twice piloted the national democratic party to in the last six years. James P. Clarke, who contested in the Arkansas primaries with Senator Jones for a seat in the United States senate, by all the returns, appears to have shunted the venerable statesman onto the sidetrack. Senator Jones refuses to believe himself beaten, but that is more likely to be due to habit acquired in two national campaigns than to any confidence in his claims.

It is asserted that this government will not exert any influence on the new Cuban government in behalf of Neely, Rathbone and Reeves, lately convicted of the postal frauds in Cuba. However, it is at the same time hinted that President Palma, of Cuba, may find it in his heart to exercise clemency after a short time. It may be doubted if the Cuban president finds it so much in his heart as in the judgment of his head to pardon this precious trio of rascals. Notwithstanding their sojourn will be spent in prison the Cuban government will probably feel safer with them out of the country than in Cuba under any circumstances. If they are pardoned the act will not be so much one of leniency as precaution.

A PHILIPPINE POLICY.

All persons in this country who believe the people of the Philippine archipelago ought to have a free and independent government will substantially agree that the plan proposed by the democratic members of the senate committee on the Philippine Islands is one having many admirable features.

The substitute just agreed upon by the democrats of the committee to be offered to the senate provides that the United States shall relinquish all sovereignty over the archipelago, but shall continue to occupy and govern the islands until the people there shall have established a government and guarantees have been secured for the performance of our treaty obligations with Spain, for the safety of natives who have adhered to the authority of the United States and for the protection of all rights which have accrued under the sovereignty of this government there. A constitutional convention is provided for the members of which shall be elected by voters who speak and write English, Spanish or some other language of the archipelago. The convention is to meet in Manila and form a constitution and organize a government well adapted to promote the welfare of the people. This convention shall provide, by an ordinance, irrevocable without the consent of the United States, the following securities:

"1. That there shall belong to the United States and continue to be the property thereof such lands and waters as the president of the United States shall designate to the said convention, for naval, military and coaling stations and terminal facilities for submarine cables, the same to continue under the control and sovereignty of the United States.

"2. To carry into effect the treaty obligations of the United States with the kingdom of Spain and for the maintenance and protection of all rights and property acquired under the authority of the United States.

"3. That no inhabitant of the archipelago shall ever be molested, in person or property, on account of his or her adherence to the United States."

Following these guarantees the president of the United States is to issue a proclamation declaring the independence of the people of the archipelago. The president is also authorized to negotiate an agreement between the United States, the Philippine archipelago and Great Britain, Germany, France and such other powers as he may deem best providing for the perpetual neutrality and inviolability from foreign interference with the territory of the archipelago and for equal trade opportunities between the archipelago and all foreign countries. Amnesty is to be granted to all inhabitants who have borne arms or have committed political offenses against the government and the armed forces of the United States are to be withdrawn within sixty days after the election and inauguration of Philippine officers under the constitution provided for.

But the real trouble is not with the brain but the overtaxed stomach. If the brain suffers it is because the blood is deficient in the nutritive elements that feed it. If the nerves are unstrung it is because they too are not being nourished.

The body and all its organs are sustained by nutrition derived from food changed into blood and in this form conveyed to the various organs of the body. When the stomach and other organs of digestion and nutrition are diseased, they only extract a part of the nutrition from food and so brain and body alike grow weak from semi-starvation; and when the stomach is asked to digest indigestible things which are forced upon it, when out of pastry and candy it is required to make nutrition, it is a request to make bricks without straw and can only result in physical collapse.

In all cases where there is a diseased condition of the stomach and the digestive and nutritive systems, Dr. Pierce's Golden Medical Discovery commends itself for the prompt relief it gives and the perfect cure it accomplishes. It agrees with the most delicate and has been very successfully used with infants and children in cases of indigestion, and its complications. It cures the weakest child because it cures the strongest man, for the greater includes the less.

"Golden Medical Discovery" is especially adapted to the use of children and young people, because it contains no alcohol and is entirely free from opium, cocaine and all other narcotics.

"I have been thinking of writing to you for some time," says Mrs. W. D. Benson, of Maxton, Robeson Co., N. C., "to let you know what a wonderful thing Dr. Pierce's Golden Medical Discovery did for my little boy. He was taken with indigestion and was under the doctor's treatment for five long years. We spent all we made for doctor's bills and it did no good. When he would take a spell of indigestion he would lie for ten or fifteen days, and it seemed as though he would die. He had these spells every two or three weeks. He could not eat anything, only a little milk and cracker, and sometimes even this would make him sick. He could not eat any meat or vegetables and he got very weak; could not sit up all day, and I gave up all hope of his ever getting any better. I found one of your books and I noticed Dr. Pierce's Golden Medical Discovery recommended for indigestion; we bought some and gave it to our boy. He had been treated at Hood's Creek by a good doctor, and at Bennettsville, S. C., and at Currie, and Lumberton and Maxton, and was only relieved for a short time. We gave him two bottles of Dr. Pierce's Golden Medical Discovery and it cured him. He is as well as can be and can eat anything that he wants and it does not hurt him. He has not been sick a day since, and it has been three years since he took your medicine."

"My four-year-old daughter had suffered from indigestion and bowel trouble from birth," writes Mrs. Lizzie Aten, of Baldmount, Lackwanna Co., Pa. "The treatment given her by home doctors afforded but temporary relief. Last February she was taken with severe pain in the bowels followed by violent vomiting. She experienced difficulty in passing urine, which, when cool, deposited a milky sediment. I became alarmed from her symptoms and wrote to the World's Dispensary Medical Association, of Buffalo, N. Y., receiving in reply a letter advising the use of Dr. Pierce's Golden Medical Discovery, together with a special medicine which they sent, called 'Demulcent and Diuretic Infusion.' This line of treatment I followed for about two months, at the end of which time my child was enjoying good health, and she has had no severe attack of indigestion since."

Dr. C. A. Zimmerman: Respected Sir—For humanity's sake I write the following certificate of a cure effected in me by your special treatment. I have been a great sufferer from disease of the heart and dyspepsia for ten years. For four years I have been taking the usual physicians in this place and every remedy my friends could think of, but to no purpose. Eight months ago I commenced treatment at your Sanitarium. Two months' treatment cured me, and today I am well. Yes, dear friends, who are suffering from chronic diseases, give Dr. Zimmerman a trial. THE MARKETS.

Chicago, March 31.—May wheat opened a shade to ⅛@¼c higher at 71¼c to 71⅜c on prospects of freezing weather and its influence on the corn market. Wheat generally has progressed far enough that the cold weather was not a source of much fear to traders on its account. Foreign markets were closed because of a holiday and wire troubles over many sections of the country delayed business. At the start commission houses bought fairly, but the crowd began playing for a reaction and sold short heavily. May slid off to 70⅞c, but continued buying brought prices up again to 71⅛@71¼c. Local receipts were 79 cars, none of contract grade. Minneapolis and Duluth reported 391 cars, making a total for the three points of 470 against 541 last week and 562 a year ago. On passage breadstuffs increased 2,296,000 bushels. World's shipments were 6,632,000 bushels, compared to 7,399,000 bushels last week and 8,575,000 bushels the corresponding week a year ago.

For a time after the first hour selling was liberal in the wheat pit, especially for the outhwest. May declined to 70½c, but was advanced again on covering and activity in corn. May closed steady, unchanged, at 71⅛@71¼c.

The cold weather had a bullish effect on corn at the opening, but covering was retricted because of heavy Russian and Danubian shipments. May started ⅛@¼c to ¼@⅜c higher at 60⅜c to 60½c and held well for a time on the good tone in July. Later July was sold liberally and May weakened to 59⅛@59⅜c. Covering brought the price of May back to 59¾c. where it steadied Receipts were 117 cars.

There was active manipulation in July corn by the crowd which rumor says is trying to corner the market. July was bought early, then sold very heavily to depress prices, but later bought in quietly. May fluctuated with July, which was at one time 1 cent off. May dipped to 59⅜c. but sold up again to 60½@60⅝c. closing firm, ⅛@¼c higher. at 60½c.

Oats opened steady and a little higher on the strength in other grains. There was a tendency, however, to sell and as corn weakened oats eased off. May started ⅛c up at 41⅜c, declined to 41¼c, but on covering regained 41½c. Receipts were 132 cars.

Provisions opened steady in the face of a weaker hog market. July options were somewhat stronger, but May was at once subjected to liquidation and prices declined. May pork started unchanged at $16.55 and eased to $16.47½; May lard 5c up at $9.82½, and May ribs unchanged to 2½c higher at $8.87½ to $8.90 and sold down to $8.85.

ABOUT THE COURT HOUSE.

The case of Frances E. Crow vs. Charles W. Branstrattor, administrator, was called in the circuit court this morning and the day was occupied in trying to get a jury, a job which is only partially completed at this writing. The Branstrattor will case has been before the courts in various phases four or five times during the past eighteen months, the previous actions being mostly on the part of the widow in securing her portion under the will or under her election to take the widow's third as provided by the statutes. This, however, is the first time that the validity of the will itself has been directly attacked. The plaintiff seeks to set aside the will on grounds of insanity or unsoundness of mind of the testator at the time it was made, and also on grounds of undue and improper influence being brought to bear upon the testator before making the will. It is not unlikely that the hearing of the case will occupy most of, if not the entire week. For the plaintiff, Breen & Morris appear, and for the defendant the Leonards, Henry Colerick and W. G. Colerick, while for other parties interested as co-defendants and made defendants in the complaint, Barrett & Morris and Olds & Doughman will appear.

The superior court is in vacation this week.

There was a great crop of divorces seeded today. Lela Lottridge wants to be divorced from Edgar Lottridge. She says that they were married in 1897 and lived together two days, when the defendant abandoned her and has not lived with her nor provided for her since. Anna DeLong wants a seperation from James DeLong. The parties live in Washington township, were married in 1889 and ever since the wedding day James is accused of cruelty of all kinds, failure to provide and inhuman conduct, combined with general cussedness. Plaintiff also asks for the custody of their three children. Myrtle Foltz asks for a divorce from George W. Foltz, but the complaint has been taken off file by the attorneys to prevent inquisitive reporters from finding out out what the public records will eventually show.

Franklin LeVan vs. Lucy A. Winters et al. is the title of a suit filed in the circuit court for partition and quieting of title.

F. W. Heine sues Henry Gutjohn for rent in the sum of $200.

The county commissioners will not be in session before Wednesday. The April term of commissioners' court will commence on Monday next and not on the 1st day of April, as is erroneously supposed.

LOCAL LINES.

FIFTH DISTRICT CONVENTION

SEMI-ANNUAL MEETING OF THE CHURCHES OF CHRIST.

Meetings are Being Held in Creighton Church—Will Close Wednesday Evening.

The semi-annual convention and church rally of the Fifth district Churches of Christ opened this afternoon at the Creighton avenue church, with a large attendance of delegates. The district includes the counties of Allen, Whitley, Adams, Wells, Huntington, Wabash and Grant, in which there are about twenty-five churches.

The meeting this afternoon was a Christian Endeavor session and was opened with a devotional exercise conducted by John R. Wagner, of this city. Papers on "Our Weak Points in Christian Endeavor and How to Strengthen Them," by Miss Leola Dickey, of Marion, and "Our Strong Points and How to Make Them Stronger," by Mrs. Lillian Hawley, of Huntington, were read, and were followed by short talks on "Our Commission," by Ethel Burnan, Markle; "Our Mission," by Della Brandon, Andrews; "Our Expectation," by Winnifred Heaston; "Our Realization," by Mrs. Helen Lamar, Decatur. A. M. Gillespie, of Dunfee, presented a paper on "The Destitute Fields and How to Reach Them," after which reports were heard from the different societies, county superintendents and district superintendent. State Superintendent Allen made an address on "One Thing Essential," which was followed by a symposium on "Our Relation to the Gospel Plea," by Eva Acker, Decatur; "To the Systematic Giving," by Miss Francis Austin, Fort Wayne; "To Civic Righteousness," by Mrs. E. W. Allen, Fort Wayne; "To Other Departments of Church Work," by R. H. Smith, Marion.

The convention will be in session until Wednesday evening and a portion of each day will be devoted to the work of the various church departments. The program for this evening will be:

7:30—Song and praise service, conducted by M. F. Bickoff, Marion, Ind.

7:45—Open parliament on "C. E. Methods," conducted by Irene Wilkerson.

8:10—Address, "Our Progress, Purpose and Prospects," B. L. Allen, state superintendent, or someone else.

8:40—Consecration service, led by Miss Smith, Gas City.

9:00—Announcements and adjournment.

TONIGHT THE NIGHT

Big Business Guessing Contest Comes Off—Twenty Dollars in Prizes.

On another page will be found the big business men's guessing contest notices of which we have been running for several days in The Sentinel. It is simple and to the point. It consists of a number of articles containing descriptions of the facts and characteristics of a number of Fort Wayne leading business men, but their names and addresses are purposely withheld. The reader is asked to guess who these articles refer to and to the first five turning in correct or nearest correct solutions the following prizes will be given:

First prize—Ladies' or gent's gold-filled watch.

Second prize—Ten dollars in gold.

Third prize—Five dollars in gold.

Fourth prize—Three dollars in cash.

Fifth prize—Two dollars in cash.

You can have as many guesses as there are members of the family and nobody is barred but the employes of The Sentinel. Use any fair means at your disposal. If, for instance, from the description you are unable to decide, call by telephone or in person the party or parties you have in mind who will verify your guess, and keep calling until you have struck the right one.

You will notice that in describing the firm or individual we aim in most cases to specify particular articles for which they are sole agent. That is your "Q." If you don't know where that article is to be found, find out and your guess will be correct. The business men represented will gladly give you the information desired. This is the only safe way. Investigate each one you have the least doubt about and DON'T BE AFRAID TO USE THE TELEPHONE. Go after them—it's easy.

ABOUT THE CITY HALL.

Health Commissioner Macbeth this morning was in communication with Dr. King, who was sent to Hoagland to take charge of the McGirk smallpox case a week or more ago. Dr. King reported that the little girl patient was getting along very nicely, but that a McGirk boy, aged about sixteen, had been taken down this morning and was undoubtedly suffering from smallpox. The boy has not recently lived in this city, but has for several months been making his home with his aunt at Hoagland, where the sick girl is and where the entire McGirk family is quarantined. Dr. Macbeth also said that he and Dr. Proegler yesterday visited the farm of W. Welsheimer, about nine miles northwest of the city, the place where young Elwell, the most recent acquisition to the list of city patients, was employed previous to his coming to town last Friday. He found that Mr. Welsheimer is a wideawake farmer, with modern ideas, and that as soon as he heard of the Elwell case he fumigated his house and everything in it and sent for Dr. Squires, of Churubusco, who was at the house yesterday vaccinating the entire family and help. The family complete consists of fourteen persons and all were properly attended to. The farmer who was Samaritan enough to bring Elwell to town last Friday evening when he found him on the road near the city was David DeVilbiss, living a few miles northwest of the city. After he had performed his kindly office he thought the matter over, and returned to Dr. Stultz's office and had himself disinfected with formaline and at the same time submitted to vaccination. Dr. Macbeth states that each of the six patients now under his charge is doing nicely and that two of them will be discharged this week. No other cases of contagious disease are now in the city, not even scarlet fever.

Secretary Mohler, of the Associated Charities, is entertaining his father, Amos Mohler, of Huntington. The elder Mohler is over eighty years of age and is hale and hearty as a man of fifty.

"Billy" Brady, assistant cashier of the Barber Asphalt company, with headquarters at Indianapolis, spent Sunday in the city. Mr. Brady explains to his friends that business for the company is responsible for his frequent visits here. His friends who know that the Barber people do not do business on Sunday think differently and some say that one of these days "Billy" will leave town, taking with him one of Fort Wayne's brightest girls as his bride.

The Metropolitan Paving Brick company, of Canton, Ohio, has been incorporated and among the principal incorporators are Charles and Warren Keplinger, two Fort Wayne boys, who have been long connected with the concern. The new corporation has absorbed the Imperial Brick company, the Royal Brick company and the Canton and Cleveland Brick and Stone company, with plants at Canton and Cleveland, making it the strongest brick concern in the country.

The city employes will be paid tomorrow and the pay roll will take in everybody, including the councilmen, who have a pay day only every three months, and the street and park employes, who get their pay every two weeks. It is not often that the pay days for all the city's employes fall on the same day. The street and park employes are paid twenty-six times a year; city officers, fire, police and administrative officers, twelve times a year, and councilmen, four times a year, so it is very rarely, indeed, that all the departments are paid on the same day, as tomorrow.

The board of works are in session this afternoon transacting routine business, no stated business having been set for today.

Funeral services will be held Wednesday morning at 10 o'clock from the residence.

TCHANTZ.

Mrs. Flora B. Tchantz, wife of Jacob Tchantz, of Raber, Whitley county, who was in the city to receive medical treatment, died Sunday morning at the residence of her brother, L. E. Williamson, 1005 High street, from tuberculosis, at the age of 27 years, 9 months and 3 days.

The remains were shipped to Raber for interment.

SICKNESS Handed Down By HEREDITY

THE perplexed physician anxiously watches at the bedside of the innocent little one. Its legacy from its ancestors is a severe case of scrofula. The flushed face and the fevered brow tell of internal corrosion—poison from tainted parentage sapping the child's life. All the symptoms of scrofula are painfully apparent. The glands of the neck and throat are swollen, the eyes run fiery water, the stomach exudes a catarrhal sediment. All over the body are the offensive abscesses that tell of nature's distressed condition.

The physician may well be perplexed. He is face to face with a foe that is difficult to conquer. Difficult—until that splendid blood cleanser and blood renewer

LEROUX'S BLOOD REMEDY

Is called into requisition. The first effects of this marvelous medicine are almost imperceptible. It acts so easily and soothingly that the cure has commenced before patient or parent realize that a change has occurred. The blood, again brought to a normal condition, is supplied with recreative stimulant. The whole system quickly benefits by the tonic. The fever subsides. The sores are healed. The appetite sharpens. Every particle of food is digested. The vital spark begins again to burn brightly. The poison is completely eliminated. The child becomes again clean, pure, sound and healthy in every part. Leroux's Blood Remedy **can** and **will** cure scrofula no matter how radical the case

AN INFANT CURED OF SCROFULA.

Read of this remarkable rescue of an infant from the scourage of Scrofula:

THE LEROUX MEDICINE CO., Toledo, O.

Gentlemen—About two years ago Mr. Frank Lavoy, soliciting agent for the Seyfang Baking Co., called at our store, as he does very often, and he happened to notice my boy (1 year old) with a mass of sores all over his head and face. Asking me what the matter was, I told him the doctor had pronounced it Scrofula, and that the boy was being treated for that without the least improvement. Mr. Lavoy persuaded me to try Leroux's Blood Remedy, and said that if it did not do any good he would refund the money himself. I tried one bottle and it cured the baby's head and face to perfection. Ever since I have recommended it to others, and am very grateful to the Leroux Medicine Co.

Yours respectfully,
GUS DUBOIS,
858 Forrer St., Toledo, O.

Other Convincing Cures.

The Leroux Medicine Co., Toledo, O.

Gentlemen—I desire to offer you as publicly as possible, my hearty thanks and congratulations, for the remarkable cure you have effected in bringing me back to perfect health, after twenty years of terrible torture. I have been a citizen of Toledo for nearly forty years, and for half of that time have suffered untold agony from blood poisoning and rheumatism. For fifteen years I have been proprietor, with my brother, of the Ricard Roller Works. In 1883 the diseases from which I suffered had so completely wrecked and crippled me that I was unable to continue in business. I was almost totally blind, as all my friends will bear witness. My blindness prevented me from going on the street and I could read no print with any kind of glasses. My body was sore, and tender to touch, my legs stiff as a board, and for three years my right foot was totally paralyzed. For months at a time I was unable to leave my room and good physicians could do nothing for me. In June, 1900, I was persuaded to buy a bottle of Leroux's Blood Remedy, and to my amazement I began to feel an improvement before I had finished taking it. By the time I had taken two bottles my legs were limbered up; after I had taken six bottles my sight was restored and the pains had disappeared, and at the end of the tenth bottle I was absolutely and completely cured. Today I am sound, strong, and without a blemish. My youthful vigor has returned, my eyesight is vastly improved, and I have not a pain or an ache.

Yours respectfully,
OLIVER RICARD,
1817 George Street, Toledo.

It gives me pleasure to express my faith in the virtue of Leroux's Blood Remedy. Having suffered for years from Salt Rheum, and after having been unsuccessfully treated by the best physicians, I began the use of your remedy and am thankful to say that I have derived more benefit from this medicine than any I have ever tried.

I can only say that your medicine does all that you claim.

Respectfully yours,
MRS M. JOHNSON,
815 Broadway, Toledo, O.

No recommend is better than a trial of your blood remedy. It not only helps but cures bad blood. I tried many remedies for impure blood. Two bottles of your medicine were sufficient for my cure. I will gladly assist you if you desire to refer to

WILL MOVE EAST

OPERATOR C. H. CURRIE GOES TO PHILADELPHIA.

SOLDIERS MOVING WESTWARD

A REGIMENT WILL PASS THE CITY TOMORROW.

WORK ON TURNTABLE BEGINS

CONTRACTOR CARMICHAELS AND HIS WORKMEN ARRIVE.

Some time this week Charles H. Currie and his family will leave Fort Wayne for Philadelphia, where they expect to reside in the future and where Burleigh Currie, a son of Mr. and Mrs. Currie, now holds a lucrative position as an electrician. Charles Currie is one of the oldest telegraph operators, both in term of service and in years, in the city. For many years he was employed in the Western Union offices or in the railway offices, retiring from the work to engage in the grocery business in the early 80s. Six or seven years ago he retired from business, and resumed telegraphy and has been constantly thus employed since. The Misses Lulu and Edith Currie will accompany their parents to the Quaker City.

A MILITARY TRAIN.

Tomorrow evening, between 5 and 6 o'clock, a party of United States soldiers will pass through the city, over the Nickel Plate road, traveling by special train. The soldiers will be delivered to the Nickel Plate at Buffalo and will be turned over by that company to the Chicago and Northwestern and taken to Fort Sheridan.

THE FIRST EXCURSION.

The Nickel Plate will run the first excursion of the season next Wednesday, when it will take a party of church people from Fostoria to Cleveland. The excursion will be under the auspices of the Congregational church at Fostoria.

A BIG SICK LIST.

The sudden fall in temperature and the accompanying snow and high winds have had a deleterious effect upon the health of the shopmen of the Pennsylvania, and there are many vacant places today. Among the sick ones not previously reported are A. Kummer, E. Zorbaugh, John I. Bickness, L. A. Watterson, D. A. Wolford, C. Forks, H. Matthewson, J. Junk, Peter Junk and A. F. H. Dornte. The following were off duty to look after private affairs: Julius Scheimann, A. Wefel and J. H. Cody.

THEY MEAN BUSINESS.

Up to the noon hour today the Wabash section men in this city had received no reply to their demand for an increase of wages from $1.25 to $1.50 per day, and unless the demand is granted before the hour for quitting work this evening the men will not return to work tomorrow morning. They declare they cannot subsist upon the wages now received and if the increase is not made immediately, they will seek work elsewhere. This is the information one of the section men gave The Sentinel reporter today.

MAY REDUCE SHOP FORCES.

The Huntington papers say it is rumored in that city, and upon what appears to be good grounds, that the Chicago and Erie company will reduce its shop working force fully 20 per cent. early in April. The Herald adds: "Why the company should contemplate such a cut at this time is a query, as business on the road is very good. In fact, it is so heavy that every available engine is pressed into service, but there is no accounting for the whim of the higher railroad officials."

WRECK NEAR ATTICA.

A freight train on the middle division of the Wabash broke in two and the parts collided with terrific force near Attica yesterday morning. Several cars were demolished and others were derailed and the tracks were blocked several hours. Passenger trains 6 and 8 had to detour over the Chicago and Eastern Illinois and the Lake Erie and Western.

THE WABASH WINS.

Judge Capron, of the Fulton circuit court, has made the restraining order issued by the court against the Cincinnati, Richmond and Muncie road permanent, or until the final decision in the injunction case of the Wabash vs. the Cincinnati, Richmond and Muncie company. This case grew out of the quarrel over a grade crossing of the Wabash tracks by the Cincinnati, Richmond and Muncie at Peru, and it is similar in many ways to the [illegible] by the Wabash and the Baltimore and Ohio roads at St. Joe.

YARDMASTER RESIGNS.

A. J. Kayes, day yardmaster at Peru for the Wabash, will resign that position this evening to accept one with another road. It could not be learned here who would succeed Mr. Kayes.

A NEW DRAUGHTSMAN.

Oscar Grieble, a young man who hopes to be a fine draughtsman some day, began an apprenticeship in the draughting department of the Bass Foundry and Machine works this morning. Oscar is a son of William Griebel, of the Fort Wayne Drug store.

SWITCHMAN INJURED.

In stepping from the footboard of a shifting engine in the Pittsburg yards yesterday, Switchman David Prim slipped in such a manner that the footboard struck and sprained one of his ankles severely. He will probably be unable to work for a week or two.

WIRES DOWN.

There was trouble along the railway telegraph wires yesterday and today and the entire line force has been in service constantly since early morning yesterday. Yesterday the Pennsylvania wires at Chicago were down or twisted to the extent that they were nearly inoperative and this morning the Grand Rapids and Indiana wires went down between Kalamazoo and Grand Rapids and it was 11 o'clock before they were again in working order. The Nickel Plate, the Lake Shore, the Wabash and the Lake Erie and Western also had their troubles in this way, though to less extent than did the Pennsylvania and Grand Rapids.

A REMARKABLE FAMILY.

E. W. Richards, night watchman at the Fort Wayne Electric works, has gone to Huntington to attend the funeral of his sister. This is the first death in the family in forty years and there are ten children. Mr. Richards, the head of the family, died in 1862, which was the last death up to the time of the demise of the member who resides in Huntington. Mrs. Richards, the mother, who is eighty-two years old, and nine children, are still living and all are in fair health.

REMAINS ANOTHER MONTH.

General Manager Waldo, of the Cincinnati, Hamilton and Dayton road, has prevailed upon Superintendent B. W. Fenton to remain with the company another month and that gentleman will preside over the Findlay until the first day of May. It was his intention to leave the company tonight. Nothing would please the railway men and the many friends of Mr. Fenton more than the news that he will remain permanently in his present office.

PRINCESS RINK DECORATED.

A party of trainmen have been at work today decorating Princess rink for the annual ball of the B. of R. T. this evening. In the decorations trainmen's red lanterns were liberally used and this was accomplished through the kindness of the Pennsylvania, the Nickel Plate, the Wabash and the Grand Rapids and Indiana officials, who loaned the boys the lanterns. On one side of the immense wall lanterns are arranged so as to read "136, B. R. T." the number of the local lodge and the initials of the order, and on the south wall the word "welcome" is made in the same manner. Red, white and blue and green bunting is liberally entwined about the pillars and draped in the arches and with the lanterns, the effect will be most charming. In these decorations there were 195 lanterns used.

AN OFFICIAL VISIT.

Gen. Supt. A. M. Schoyer, of the Pennsylvania, is out on the western division of the road today. He passed through this city in his private car, attached to train 21, en route to Chicago. Supt. J. B. McKim met and accompanied the general superintendent to the Windy City.

EXCAVATING FOR TURNTABLE.

Contractor Carmichael, who will put in the foundation and side walls for the Wabash company's new turntable, arrived in the city this morning and started men at work in making the excavation. The walls and pit floor will be of concrete, with stone coping on the walls.

INDUSTRIAL NOTES.

Adam LaMar has returned from a business trip to Pittsburg.

Brakeman A. B. Conn, of the Nickel Plate, is sick and off duty.

Machinist A. D. Noble has severed his connection with the Wabash shops.

J. B. [illegible]water, telegraph operator at the Wabash master mechanic's office, is quite sick at his home.

Robert Kinnaird, the grandson of Machinist Robert Kinnaird, of the Wabash shops, is very sick.

C. H. Heckman, a Pittsburg blacksmith, is in Adams county, looking after some private business.

A pair of golf gloves and a handkerchief await some lady at Captain Stoll's office. They were left on a Pennsylvania train Friday.

Master Mechanic Theodore Kucher, of the Toledo, Peoria and Western road, a Pennsylvania line, was the guest of his relatives yesterday.

F. V. McDonald, an apprentice at the Pittsburg machine shop, has gone to his home, Barkettstown, Pa., for a two weeks' visit with his parents.

The coming summer the Clover Leaf will put down sixty miles of seventy pounds to the yard rails. President Norton has already placed the order for the rails.

Mr. and Mrs. M. H. Rowan and two daughters will leave this evening for Pittsburg for a short visit with Mrs. Rowan's father. Mr. Rowan is a Pennsylvania trainman.

A. J. Cassatt, president of the Pennsylvania is quoted as saying that "there will be no room in the company's proposed terminals in New York but for its own passenger traffic."

An Easter visitor in the city was Ed C. Gordon, storekeeper at the Pennsylvania shops in Allegheny, who arrived in the city Saturday night. Ed likes his new position first rate.

James Vaughn, an employe at the Pittsburg freight house, had the instep and great toe of his right foot badly bruised Saturday afternoon by a heavy piece of freight falling upon the member.

Fred Fitch had an ugly gash cut in his nose Saturday night by being struck by a piece of glass that was carelessly thrown by a playmate. The injured lad is a son of L. L. Fitch, night foreman at the Pittsburg freight house.

The first annual ball of the Blacksmiths' union No. 222, which takes place at Saengerbund hall tonight, will be attended by a big crowd and the guests are promised a good time. The Annex orchestra, which is composed of Pennsylvania employes, has been engaged for this occasion.

Tomorrow the new union station of the Big Four and the Lake Erie and Western at Muncie will be opened for business and the old Lake Erie station will be permanently closed. Harry L. Green, the Big Four agent, will have charge of the new office.

Jay J. McCracken, cashier at the Pittsburg freight house, will leave the present week, probably Thursday, for the south. The trip has been postponed until this week on account of Mr. McCracken's services being required at the freight offices. He expected to leave March 15.

Hobart people want the Pennsylvania to put on a train leaving that city at 6:30 in the morning for Indiana Harbor and returning in the evening. The bulk of the population of Hobart, it seems, is employed at Indiana Harbor and the present train schedule is not satisfactory to them.

The Nickel Plate is giving the water supply at Bellevue a good deal of attention at present. Last Thursday all of the higher officials met in that city to discuss the matter. The water famine at Bellevue the early part of the past winter was a serious matter that the company does not care to have repeated.

Master Mechanic M. R. Coutant, of the Wabash, was the guest of his daughter in Springfield on Easter Sunday.

Machinist C. H. DeRome, of the Pittsburg, has recovered from an illness which kept him from his work several days.

George T. Ladd, of the Bass works, left last night for Cleveland. He will also visit Pittsburg in a business way before returning home.

H. M. Quicksell went into southern Michigan this morning in the interest of the Star Union freight line. He will be there three or four days.

Shop Clerk J. H. Hobrock, of the Pennsylvania, returned this morning. He had been in Pittsburg and Wellsville a week on business for the company.

Master Car Builder J. A. Graham and Chief Car Inspector W. W. Todd, of the Pennsylvania, went to Detroit today to inspect some new cars for the company.

Two cars and an engine tank of a Pennsylvania train got off the tracks at S E tower, near Coesse, this morning. The wreck crew was called to the scene and soon cleared the tracks.

L. F. Johnson, an apprentice in the mechanical department of the Pennsylvania shops, will tomorrow go on the road for a four months' experience as a fireman. This is required of all apprentices in the Pittsburg shops.

Thomas D. Pickard, superintendent of the Chicago branch of the Bass works, came down here Saturday night for the double purpose of spending Easter with his parents and looking after some business for the Bass company.

Train Dispatcher G. P. Stewart, of the Pittsburg, who has been sorely afflicted with rheumatism for some time, being almost unable to move about, will take treatment at some sanitarium, in the hopes that he may be able to resume work.

The Fort Wayne Electric company sent a 2,400-light generator to Hartford City this morning and a big "booster" to Pittsburg. The latter is to be employed in transmitting power to factories in the Smoky City.

J. H. Kamm, a tinner, resumed his duties at the Pittsburg shops this morning after a short absence on account of an injured finger. Mr. Kamm had another misfortune yesterday, when his fine shepherd dog was run over by a train and had a couple of legs cut off. Officer Petgen was called to anoot the animal.

The New York Central and the Niagara Falls trolley lines are in the midst of a rate cutting war. To meet the rate of the electric road, the Central reduced its rates from Buffalo to Niagara Falls to 50 cents two weeks ago. Then the electric line made another reduction and last Saturday the Central announced a rate of 35 cents single or 50 cents round trip between the Falls and Buffalo. The distance is twenty-three miles.

F. Yahne, a painter, will resume house painting this week on "his own hook." He has been working in the Pittsburg shops ever since last fall, when the house painting season closed. Painters Cummings and Bender have also resigned their positions at the shop for the purpose of working for a house painter. T. Bower, who has worked at the shops a few months, will leave in a few days for Seattle, Wash., where he will work at his trade.

THE MARKETS.

Chicago, March 31.—May wheat opened a shade to ⅛@¼c higher at 71¾c to 71⅞c on prospects of freezing weather and its influence on the corn market. Wheat generally has progressed far enough that the cold weather was not a source of much fear to traders on its account. Foreign markets were closed because of a holiday and wire troubles over many sections of the country delayed business. At the start commission houses bought fairly, but the crowd began playing for a reaction and sold short heavily. May slid off to 70⅞c, but continued buying brought prices up again to 71⅛@71¼c. Local receipts were 79 cars, none of contract grade. Minneapolis and Duluth reported 391 cars, making a total for the three points of 470 against 541 last week and 562 a year ago. On passage breadstuffs increased 2,296,000 bushels. World's shipments were 6,632,000 bushels, compared to 7,399,000 bushels last week and 8,575,000 bushels the corresponding week a year ago.

For a time after the first hour selling was liberal in the wheat pit, especially for the outhwest. May declined to 70½c, but was advanced again on covering and activity in corn. May closed steady, unchanged, at 71⅛@71¼c.

The cold weather had a bullish effect on corn at the opening, but covering was restricted because of heavy Russian and Danubian shipments. May started ⅛@¼c to ⅜@⅝c higher at 60⅛c to 60¼c and held well for a time on the good tone in July. Later July was sold liberally and May weakened to 59⅛@59⅜c. Covering brought the price of May back to 59⅝c, where it steadied Receipts were 117 cars.

There was active manipulation in July corn by the crowd which rumor says is trying to corner the market. July was bought early, then sold very heavily to depress prices, but later bought in quietly. May fluctuated with July, which was at one time 1 cent off. May dipped to 59⅜c, but sold up again to 60¼@60⅜c, closing firm, ⅛@¼c higher, at 60⅛c.

Oats opened steady and a little higher on the strength in other grains. There was a tendency, however, to sell and as corn weakened oats eased off. May started ⅛c up at 41⅜c, declined to 41¼c, but on covering regained 41½c. Receipts were 132 cars.

Provisions opened steady in the face of a weaker hog market. July options were somewhat stronger, but May was at once subjected to liquidation and prices declined. May pork started unchanged at $16.55 and eased to $16.47½; May lard 5c up at $9.82½, and May ribs unchanged to 2½c higher at $8.87½ to $8.90 and sold down to $8.85.

ABOUT THE COURT HOUSE.

The case of Frances E. Crow vs. Charles W. Branstrattor, administrator, was called in the circuit court this morning and the day was occupied in trying to get a jury, a job which is only partially completed at this writing. The Branstrattor will case has been before the courts in various phases four or five times during the past eighteen months, the previous actions being mostly on the part of the widow in securing her portion under the will or under her election to take the widow's third as provided by the statutes. This, however, is the first time that the validity of the will itself has been directly attacked. The plaintiff seeks to set aside the will on ground: of insanity or unsoundness of mind of the testator at the time it was made, and also on grounds of undue and improper influence being brought to bear upon the testator before making the will. It is not unlikely that the hearing of the case will occupy most of, if not the entire week. For the plaintiff, Breen & Morris appear, and for the defendant the Leonards, Henry Colerick and W. G. Colerick, while for other parties interested as co-defendants and made defendants in the complaint, Barrett & Morris and Olds & Doughman will appear.

The superior court is in vacation this week.

There was a great crop of divorces seeded today. Lela Lothridge wants to be divorced from Edgar Lothridge. She says that they were married in 1897 and lived together two days, when the defendant abandoned her and has not lived with her nor provided for her since. Anna DeLong wants a seperation from James DeLong. The parties live in Washington township, were married in 1899 and ever since the wedding day James is accused of cruelty of all kinds, failure to provide and inhuman conduct, combined with general cussedness. Plaintiff also asks for the custody of their three children. Myrtle Foltz asks for a divorce from George W. Foltz, but the complaint has been taken off file by the attorneys to prevent inquisitive reporters from finding out out what the public records will eventually show.

Franklin LeVan vs. Lucy A. Winters et al. is the title of a suit filed in the circuit court for partition and quieting of title.

F. W. Heine sues Henry Gutjohn for rent in the sum of $200.

The county commissioners will not be in session before Wednesday. The April term of commissioners' court will commence on Monday next and not on the 1st day of April, as is erroneously supposed.

THE GREAT CANADIAN CURE.

"WRIGHT'S RHEUMATIC REMEDY"

Is making cures where all other means have failed. Can you doubt such evidence as this?

PERU, Ind., Feb. 25, 1902.

It was while working in the Rolling Mills at Bellefonte, Pa., about six years ago, that I was first taken with "Sciatica" Rheumatism. I called in my physician, who prescribed for me, but gave no relief. I was compelled to take to my bed after a year's suffering. The physician of the company gave me up and said that my case was incurable and would speedily end in paralysis. My wife then sought another physician of note, who attended to me for about a year and who said that I could not be cured. I had been in bed for nearly two years suffering with everything, with such relief as hypodermic treatment gives. After being given up by the two physicians, through the influence of friends I was taken in as an inmate of the city hospital at Williamsport, Pa., and received the best treatment that hospital afforded. I remained about eleven weeks and was then discharged by the attending physicians as incurable and returned to my home. After several months at home, I was again sent to Williamsport, Pa., hospital, to be under the personal care of Dr. McCormac, a Specialist of repute. After five weeks under his care he said that my case was hopeless, and I again was returned to my home. For another year I laid at my home and was treated by the local physician without benefit, and as a last recourse I was sent to the city hospital at Lock Haven, Pa., and remained there under the care of the staff of physicians, who at the end of five weeks told me that they could not do anything for me, and for the third time I was returned to my home at Howard, Pa. I remained there crippled and almost helpless for three years, when my family brought me to this city last October. I was barely able to move on crutches. While at the depot at Columbus, Ohio, I was spoken to by a gentleman who said that he had been cured of a bad attack of Sciatica by the use of "Wright's Rheumatic Remedy," and advised me to try it, and I was also advised by my sister-in-law, who said that this medicine was doing a great deal of good. It was upon the strength of such strong testimony that I procured a bottle, and to my great surprise, the awful pains that I had been bearing for nearly six years ceased before I had been taking your W. R. R. two weeks, and I began to feel better, and have been gaining in health and strength every day since. My right arm and hand were useless. Now the full use has returned. My limbs, that I could not bear to have touched, I can now use and can walk and go around as usual. I can hardly comprehend that after so long a time, being given up by three hospital staffs and three different physicians, that I am feeling so well, and now on the way to again being able to work and be of use and service to my family by the use of your wonderful W. R. R.

SHE FLIRTS

AND THE PROPRIETORS OF THE STORE DON'T SEEM TO CARE.

In the large window of the Meyer Bros. & Co. drug store stands all day, and every day this week, a young woman holding in her hand a National Vaporizer, and as she turns from side to side, inhaling and exhaling the vapor from the instrument, she casts bewitching glances at the crowds outside. The National Vaporizer has a world-wide reputation for the cure or prevention of catarrh of the throat, head, nose, lungs or stomach, hay fever and all kindred ills. Inside the store is an exhibit of the instruments presided over by a young lady who takes great pleasure in explaining the merits of the National Vaporizer and giving to all who desire a free treatment. With every vaporizer sold this week a month's treatment of the medicine used will be given free. The National Vaporizer is not a new thing in this city, the company having made an exhibit at this same store annually for several years, and there are hundreds in use in Fort Wayne at the present time, and there has not been a single instance where it has not given full satisfaction. Don't fail to call and get a free book.

EXTRAORDINARY

GREAT REDUCTION ON PIANOS, ORGANS, MUSICAL INSTRUMENTS AND MUSICALE MERCHANDISE.

Corner Main Street and Maiden Lane.

The room formerly occupied by the Geo. Jacobs Music House, in the Fox building, is now under repair, and when finished will make one of the finest sales-rooms in the city. When reoccupying this room he will put in an entire fresh stock of Pianos, Organs, Music and Musicale Goods. In order to accomplish this he will offer his present stock, saved from the recent fire, at less than cost. The reason he can do this is because he has had a very satisfactory adjustment with the insurance companies and also to save him the expense of moving them again. Remember these Pianos were not hurt in any way; some of them were only slightly marred in moving and after being re-polished are as good as ever. A warrant goes with every Piano, as though it came direct from the factory. The stock consists of Kranick & Bach, Fischer, Raymond, Story & Clark, Haines & Co., Vose & Sons, Kingsbury and Marshall & Wendell Pianos; Esty, Burdette and Cottage Organs and a complete line of Music and Musicale Instruments. Anybody in need of an instrument should not miss this opportunity, for "it is the chance of a life time" to get a piano or an organ at almost your own price and terms. Don't forget the date. Come early and get first choice, as the price put upon them will make them go faster than "gold dollars at ninety cents."

WILL MOVE EAST

OPERATOR C. H. CURRIE GOES TO PHILADELPHIA.

SOLDIERS MOVING WESTWARD

A REGIMENT WILL PASS THE CITY TOMORROW.

WORK ON TURNTABLE BEGINS

CONTRACTOR CARMICHAELS AND HIS WORKMEN ARRIVE.

Some time this week Charles H. Currie and his family will leave Fort Wayne for Philadelphia, where they expect to reside in the future and where Burleigh Currie, a son of Mr. and Mrs. Currie, now holds a lucrative position as an electrician. Charles Currie is one of the oldest telegraph operators, both in term of service and in years, in the city. For many years he was employed in the Western Union offices or in the railway offices, retiring from the work to engage in the grocery business in the early 80s. Six or seven years ago he retired from business, and resumed telegraphy and has been constantly thus employed since. The Misses Lulu and Edith Currie will accompany their parents to the Quaker City.

A MILITARY TRAIN.

Tomorrow evening, between 5 and 6 o'clock, a party of United States soldiers will pass through the city, over the Nickel Plate road, traveling by special train. The soldiers will be delivered to the Nickel Plate at Buffalo and will be turned over by that company to the Chicago and Northwestern and taken to Fort Sheridan.

THE FIRST EXCURSION.

The Nickel Plate will run the first excursion of the season next Wednesday, when it will take a party of church people from Fostoria to Cleveland. The excursion will be under the auspices of the Congregational church at Fostoria.

A BIG SICK LIST.

The sudden fall in temperature and the accompanying snow and high winds have had a deleterious effect upon the health of the shopmen of the Pennsylvania, and there are many vacant places today. Among the sick ones not previously reported are A. Kummer, E. Zorbaugh, John I. Bickness, L. A. Watterson, D. A. Wolford, C. Forks, H. Matthewson, J. Junk, Peter Junk and A. F. H. Dornte. The following were off duty to look after private affairs: Julius Schelmann, A. Wefel and J. H. Cody.

THEY MEAN BUSINESS.

Up to the noon hour today the Wabash section men in this city had received no reply to their demand for an increase of wages from $1.25 to $1.50 per day, and unless the demand is granted before the hour for quitting work this evening the men will not return to work tomorrow morning. They declare they cannot subsist upon the wages now received and if the increase is not made immediately, they will seek work elsewhere. This is the information one of the section men gave The Sentinel reporter today.

MAY REDUCE SHOP FORCES.

The Huntington papers say it is rumored in that city, and upon what appears to be good grounds, that the Chicago and Erie company will reduce its shop working force fully 20 per cent early in April. The Herald adds: "Why the company should contemplate such a cut at this time is a query, as business on the road is very good. In fact, it is so heavy that every available engine is pressed into service, but there is no accounting for the whim of the higher railroad officials."

WRECK NEAR ATTICA.

A freight train on the middle division of the Wabash broke in two and the parts collided with terrific force near Attica yesterday morning. Several cars were demolished and others were derailed and the tracks were blocked several hours. Passenger trains 6 and 8 had to detour over the Chicago and Eastern Illinois and the Lake Erie and Western.

THE WABASH WINS.

Judge Capron, of the Fulton circuit court, has made the restraining order issued by the court against the Cincinnati, Richmond and Muncie road permanent, or until the final decision in the injunction case of the Wabash vs. the Cincinnati, Richmond and Muncie company. This case grew out of the quarrel over a grade crossing of the Wabash tracks by the Cincinnati, Richmond and Muncie at Peru, and it is similar in many ways to the recent difficulty between the Wabash and the Baltimore and Ohio roads at St. Joe.

YARDMASTER RESIGNS.

A. J. Kayes, day yardmaster at Peru for the Wabash, will resign that position this evening to accept one with another road. It could not be learned here who would succeed Mr. Kayes.

A NEW DRAUGHTSMAN.

Oscar Grieble, a young man who hopes to be a fine draughtsman some day, began an apprenticeship in the draughting department of the Bass Foundry and Machine works this morning. Oscar is a son of William Griebel, of the Fort Wayne Drug store.

SWITCHMAN INJURED.

In stepping from the footboard of a shifting engine in the Pittsburg yards yesterday, Switchman David Prim slipped in such a manner that the footboard struck and sprained one of his ankles severely. He will probably be unable to work for a week or two.

WIRES DOWN.

There was trouble along the railway telegraph wires yesterday and today and the entire line force has been in service constantly since early morning yesterday. Yesterday the Pennsylvania wires at Chicago were down or twisted to the extent that they were nearly inoperative and this morning the Grand Rapids and Indiana wires went down between Kalamazoo and Grand Rapids and it was 11 o'clock before they were again in working order. The Nickel Plate, the Lake Shore, the Wabash and the Lake Erie and Western also had their troubles in this way, though to less extent than did the Pennsylvania and Grand Rapids.

A REMARKABLE FAMILY.

E. W. Richards, night watchman at the Fort Wayne Electric works, has gone to Huntington to attend the funeral of his sister. This is the first death in the family in forty years and there are ten children. Mr. Richards, the head of the family, died in 1862, which was the last death up to the time of the demise of the member who resides in Huntington. Mrs. Richards, the mother, who is eighty-two years old, and nine children, are still living and all are in fair health.

REMAINS ANOTHER MONTH.

General Manager Waldo, of the Cincinnati, Hamilton and Dayton road, has prevailed upon Superintendent B. W. Fenton to remain with the company another month and that gentleman will preside over the Findlay until the first day of May. It was his intention to leave the company tonight. Nothing would please the railway men and the many friends of Mr. Fenton more than the news that he will remain permanently in his present office.

PRINCESS RINK DECORATED.

A party of trainmen have been at work today decorating Princess rink for the annual ball of the B. of R. T. this evening. In the decorations trainmen's red lanterns were liberally used and this was accomplished through the kindness of the Pennsylvania, the Nickel Plate, the Wabash and the Grand Rapids and Indiana officials, who loaned the boys the lanterns. On one side of the immense wall lanterns are arranged so as to read "136, B. R. T." the number of the local lodge and the initials of the order, and on the south wall the word "welcome" is made in the same manner. Red, white and blue and green bunting is liberally entwined about the pillars and draped in the arches and with the lanterns, the effect will be most charming. In these decorations there were 195 lanterns used.

AN OFFICIAL VISIT.

Gen. Supt. A. M. Schoyer, of the Pennsylvania, is out on the western division of the road today. He passed through this city in his private car, attached to train 21, en route to Chicago. Supt. J. B. McKim met and accompanied the general superintendent to the Windy City.

EXCAVATING FOR TURNTABLE.

Contractor Carmichael, who will put in the foundation and side walls for the Wabash company's new turntable, arrived in the city this morning and started men at work in making the excavation. The walls and pit floor will be of concrete, with stone coping on the walls.

INDUSTRIAL NOTES.

Adam LaMar has returned from a business trip to Pittsburg.

Brakeman A. B. Conn, of the Nickel Plate, is sick and off duty.

Machinist A. D. Noble has severed his connection with the Wabash shops.

J. E. Freshwater, telegraph operator at the Wabash master mechanic's office, is quite sick at his home.

Robert Kinnaird, the grandson of Machinist Robert Kinnaird, of the Wabash shops, is very sick.

C. H. Heckman, a Pittsburg blacksmith, is in Adams county, looking after some private business.

A pair of golf gloves and a handkerchief await some lady at Captain Stoll's office. They were left on a Pennsylvania train Friday.

Master Mechanic Theodore Kucher, of the Toledo, Peoria and Western road, a Pennsylvania line, was the guest of his relatives yesterday.

F. V. McDonald, an apprentice at the Pittsburg machine shop, has gone to his home Harkettstown, Pa., for a two weeks' visit with his parents.

The coming summer the Clover Leaf will put down sixty miles of seventy pounds to the yard rails. President Norton has already placed the order for the rails.

Mr. and Mrs. M. H. Rowan and two daughters will leave this evening for Pittsburg for a short visit with Mrs. Rowan's father. Mr. Rowan is a Pennsylvania trainman.

A. J. Cassatt, president of the Pennsylvania is quoted as saying that "there will be no room in the company's proposed terminals in New York but for its own passenger traffic."

An Easter visitor in the city was Ed C. Gordon, storekeeper at the Pennsylvania shops in Allegheny, who arrived in the city Saturday night. Ed likes his new position first rate.

James Vaughn, an employe at the Pittsburg freight house, had the instep and great toe of his right foot badly bruised Saturday afternoon by a heavy piece of freight falling upon the member.

Fred Fitch had an ugly gash cut in his nose Saturday night by being struck by a piece of glass that was carelessly thrown by a playmate. The injured lad is a son of L. L. Fitch, night foreman at the Pittsburg freight house.

The first annual ball of the Blacksmiths' union No. 222, which takes place at Saengerbund hall tonight, will be attended by a big crowd and the guests are promised a good time. The Annex orchestra, which is composed of Pennsylvania employes, has been engaged for this occasion.

Tomorrow the new union station of the Big Four and the Lake Erie and Western at Muncie will be opened for business and the old Lake Erie station will be permanently closed. Harry L. Green, the Big Four agent, will have charge of the new office.

Jay J. McCracken, cashier at the Pittsburg freight house, will leave the present week, probably Thursday, for the south. The trip has been postponed until this week on account of Mr. McCracken's services being required at the freight offices. He expected to leave March 15.

Hobart people want the Pennsylvania to put on a train leaving that city at 6:30 in the morning for Indiana Harbor and returning in the evening. The bulk of the population of Hobart, it seems, is employed at Indiana Harbor and the present train schedule is not satisfactory to them.

The Nickel Plate is giving the water supply at Bellevue a good deal of attention at present. Last Thursday all of the higher officials met in that city to discuss the matter. The water famine at Bellevue the early part of the past winter was a serious matter that the company does not care to have repeated.

Master Mechanic M. R. Coetant, of the Wabash, was the guest of his daughter in Springfield on Easter Sunday.

Machinist C. H. DeRome, of the Pittsburg, has recovered from an illness which kept him from his work several days.

George T. Ladd, of the Bass works, left last night for Cleveland. He will also visit Pittsburg in a business way before returning home.

H. M. Quicksell went into southern Michigan this morning in the interest of the Star Union freight line. He will be there three or four days.

Shop Clerk J. H. Holbrock, of the Pennsylvania, returned this morning. He had been in Pittsburg and Wellsville a week on business for the company.

Master Car Builder J. A. Graham and Chief Car Inspector W. W. Todd, of the Pennsylvania, went to Detroit today to inspect some new cars for the company.

Two cars and an engine tank of a Pennsylvania train got off the tracks at S E tower, near Corsse, this morning. The wreck crew was called to the scene and soon cleared the tracks.

L. F. Johnson, an apprentice in the mechanical department of the Pennsylvania shops, will tomorrow go on the road for a four months' experience as a fireman. This is required of all apprentices in the Pittsburg shops.

Thomas D. Pickard, superintendent of the Chicago branch of the Bass works, came down here Saturday night for the double purpose of spending Easter with his parents and looking after some business for the Bass company.

Train Dispatcher G. P. Stewart, of the Pittsburg, who has been sorely afflicted with rheumatism for some time, being almost unable to move about, will take treatment at some sanitarium, in the hopes that he may be able to resume work.

The Fort Wayne Electric company sent a 2,400-light generator to Hartford City this morning and a big "booster" to Pittsburg. The latter is to be employed in transmitting power to factories in the Smoky City.

J. H. Kamm, a tinner, resumed his duties at the Pittsburg shops this morning after a short absence on account of an injured finger. Mr. Kamm had another misfortune yesterday, when his fine shepherd dog was run over by a train and had a couple of legs cut off. Officer Petgen was called to shoot the animal.

The New York Central and the Niagara Falls trolley lines are in the midst of a rate cutting war. To meet the rate of the electric road, the Central reduced its rates from Buffalo to Niagara Falls to 50 cents two weeks ago. Then the electric line made another reduction and last Saturday the Central announced a rate of 35 cents single or 50 cents round trip between the Falls and Buffalo. The distance is twenty-three miles.

F. Yahne, a painter, will resume house painting this week on "his own hook." He has been working in the Pittsburg shops ever since last fall, when the house painting season closed. Painters Cummings and Bender have also resigned their positions at the shop for the purpose of working for a house painter. T. Bower, who has worked at the shops a few months, will leave in a few days for Seattle, Wash., where he will work at his trade.

THE GREAT CANADIAN CURE

"WRIGHT'S RHEUMATIC REMEDY"

Is making cures where all other means have failed. Can you doubt such evidence as this?

PERU, Ind., Feb. 25, 1902.

It was while working in the Rolling Mills at Bellefonte, Pa., about six years ago, that I was first taken with "Sciatica" Rheumatism. I called in my physician, who prescribed for me, but gave no relief. I was compelled to take to my bed after a year's suffering. The physician of the company gave me up and said that my case was incurable and would speedily end in paralysis. My wife then sought another physician of note, who attended to me for about a year and who said that I could not be cured. I had been in bed for nearly two years suffering with everything, with such relief as hypodermic treatment gives. After being given up by the two physicians, through the influence of friends I was taken in as an inmate of the city hospital at Williamsport, Pa., and received the best treatment that hospital afforded. I remained about eleven weeks and was then discharged by the attending physicians as incurable and returned to my home. After several months at home, I was again sent to Williamsport, Pa., hospital, to be under the personal care of Dr. McCormac, a Specialist of repute. After five weeks under his care he said that my case was hopeless, and I again was returned to my home. For another year I laid at my home and was treated by the local physician without benefit, and as a last recourse I was sent to the city hospital at Lock Haven, Pa., and remained there under the care of the staff of physicians, who at the end of five weeks told me that they could not do anything for me, and for the third time I was returned to my home at Howard, Pa. I remained there crippled and almost helpless for three years, when my family brought me to this city last October. I was barely able to move on crutches. While at the depot at Columbus, Ohio, I was spoken to by a gentleman who said that he had been cured of a bad attack of Sciatica by the use of "Wright's Rheumatic Remedy," and advised me to try it, and I was also advised by my sister-in-law, who said that this medicine was doing a great deal of good. It was upon the strength of such strong testimony that I procured a bottle, and to my great surprise, the awful pains that I had been bearing for nearly six years ceased before I had been taking your W. R. R. two weeks, and I began to feel better, and have been gaining in health and strength every day since. My right arm and hand were useless. Now the full use has returned. My limbs, that I could not bear to have touched, I can now use and can walk and go around as usual. I can hardly comprehend that after so long a time, being given up by three hospital staffs and three different physicians, that I am feeling so well, and now on the way to again being able to work and be of use and service to my family by the use of your wonderful W. R. R.

(Signed.) JAMES AGNEW.

This is to certify that Mr. James Agnew signed the foregoing testimonial in my presence and personally gave it to me of his own free will.

SHE FLIRTS

AND THE PROPRIETORS OF THE STORE DON'T SEEM TO CARE.

In the large window of the Meyer Bros. & Co. drug store stands all day, and every day this week, a young woman holding in her hand a National Vaporizer, and as she turns from side to side, inhaling and exhaling the vapor from the instrument, she casts bewitching glances at the crowds outside. The National Vaporizer has a world-wide reputation for the cure or prevention of catarrh of the throat, head, nose, lungs or stomach, hay fever and all kindred ills. Inside the store is an exhibit of the instruments presided over by a young lady who takes great pleasure in explaining the merits of the National Vaporizer and giving to all who desire a free treatment. With every vaporizer sold this week a month's treatment of the medicine used will be given free. The National Vaporizer is not a new thing in this city, the company having made an exhibit at this same store annually for several years, and there are hundreds in use in Fort Wayne at the present time, and there has not been a single instance where it has not given full satisfaction. Don't fail to call and get a free book.

EXTRAORDINARY

GREAT REDUCTION ON PIANOS, ORGANS, MUSICAL INSTRUMENTS AND MUSICALE MERCHANDISE.

Corner Main Street and Maiden Lane.

The room formerly occupied by the Geo. Jacobs Music House, in the Fox building, is now under repair, and when finished will make one of the finest sales-rooms in the city. When reoccupying this room he will put in an entire fresh stock of Pianos, Organs, Music and Musicale Goods. In order to accomplish this he will offer his present stock, saved from the recent fire, at less than cost. The reason he can do this is because he has had a very satisfactory adjustment with the insurance companies and also to save him the expense of moving them again. Remember these Pianos were not hurt in any way; some of them were only slightly marred in moving and after being re-polished are as good as ever. A warrant goes with every Piano, as though it came direct from the factory. The stock consists of Kranich & Bach, Fischer, Raymond, Story & Clark, Haines & Co., Vose & Sons, Kingsbury and Marshall & Wendell Pianos; Esty, Bordette and Cottage Organs and a complete line of Music and Musicale Instruments. Anybody in need of an instrument should not miss this opportunity, for "it is the chance of a life time" to get a piano or an organ at almost your own price and terms. Don't forget the date. Come early and get first choice, as the price put upon them will make them go faster than "gold dollars at ninety cents."
